

CRYO THERAPY

[90 MINS] \$280

Dead cells freeze, fracture, and fall away when exposed to polylactic and glycolic acid in cold temperatures. This process removes the top layer of dead skin cells while protecting the healthy living cells beneath. Suited for skin experiencing dermatitis, acne, rosacea, hyperpigmentation, and advanced sun damage.

REVOLUTION
— SKIN & BROWS —

DMK SKIN REVISION TREATMENT MENU

Welcome to the world of DMK. Its revolutionary concept of **remove, rebuild, protect, maintain** aims to match an individual's biochemistry with the appropriate skin therapy. Botanical-based paramedical products, ingredients and technology make up the DMK skincare program.

SKIN CONSULTATION

[30 MIN] \$60

A full digital skin analysis, using our state of the art digital skin analysis machine, will allow our highly trained Dermal Skin Specialists to diagnose your skin concerns and prescribe a relevant treatment plan, including home care. Achieving amazing skin results must begin with a correct skin diagnosis. 'Lets Begin'. A skin consultation and analysis is complementary when booked alongside a first treatment.

DMK ENZYME THERAPY

DMK NUTRITION FACIAL [60 MIN] \$195

An introductory facial perfect for new clients or clients that just want to relax. Including cleanse, gentle exfoliation, massage, and hydrating mask.

DMK LEVEL ONE [90 MINS] \$220

Detoxifies, purifies, and stimulates skin health. Includes deep cleanse, gentle pre-exfoliation, enzyme therapy mask, and transdermal infusion. Perfect for clients new to DMK.

DMK LEVEL TWO [90 MINS] \$250

Removes, rebuilds, protects and encourages optimal skin health. Includes deep cleanse, pre-exfoliation, and enzyme mask. Muscle banding is available at this stage if necessary, which leaves breath taking results.

DMK LEVEL THREE [90 MINS] \$280

Treats dead cell build up and encourages cellular activity and new collagen and elastin production. Includes deep cleanse, double or advanced resurfacing pre-treatment. Layered enzyme therapy including muscle banding and transdermal infusion.

DMK LEVEL FOUR [120 MINS] \$320

This triple layered enzyme therapy treatment provides breath taking results desired by many for its instant lifting and tightening qualities. It is perfect for special occasions and includes a pre-exfoliation, enzyme #1, #2, and #3 layering, finishing with a heated transdermal infusion to lock the integral nutrients into the skin.

ALKALINE HAIR REMOVAL [45 MINS] \$120

Swell, soften, and dissolve facial hair cuticles by changing the natural skin's PH. Experience smooth, hair-free skin.

DMK SKIN PEELS AND COURSES

RP PEEL / DMK SIX LAYER REMODELLING \$1240
PROCEDURE PEEL

A full resurfacing and remodelling procedure with 5-10 days downtime. This procedure has significant positive results on the overall complexion of the skin. A treatment plan and home prescriptives must be undertaken prior to this procedure. This includes two enzyme therapy treatments.

STEMZYME \$3125

The ultimate age management treatment that aids in reducing the effects of impaired stem cell function. DMK StemZyme regenerates epidermal stem cells and their differentiation into biologically young tissues. This is done in a non-invasive way and using one's own stem cells. StemZyme is a self-personalised treatment because your own stem cells are getting utilised in the treatment. Therefore, no hazard of cell rejection in the skin. This revolutionary treatment is beneficial for treating fine lines and wrinkles, poor skin laxity, uneven skin tone and texture, pigmentation, dullness, sallow complexions, enlarged pores, dry skin and hyper-reactive skins.

Unlock the power of DMK StemZyme through a 50-day StemZyme Therapy Course which includes five in-clinic treatments and all the home prescriptives needed over the duration of the course.

Please note that this treatment requires a skin consultation prior.
