

Ideal Room Size for Wedding Morning Prep

swipe to find out >

@windycityglam

For 6-10 People (Including Bride, Bridal Party & Artists)

- **Ideal Room Size: 500-800 sq. ft.** (e.g., a large hotel suite, conference room or bridal lounge)
- **Setup Considerations:**
 - 1-2 makeup stations (table with good lighting, mirror, and chair)
 - 1-2 hairstyling stations (chair, table for tools/products, and an outlet nearby)
 - Living room and bedroom are separate
 - Comfortable seating for the bridal party to relax
 - Natural light is a plus for makeup artists
 - Space for the dress, accessories, and photos

For 10-15 People (Including Bride, Bridal Party & Artists)

Ideal Room Size: 800-1200 sq. ft. (e.g., a large hotel suite, conference room or spacious Airbnb)

- **Setup Considerations:**

- 2-3 makeup stations
- 2-3 hairstyling stations
- Living room, dining area and bedroom are separate
- Multiple power outlets and extension cords
- Additional chairs and seating areas for those waiting
- Space for a dress-changing area, photographer movement, and refreshments

Key Factors for a Smooth Getting-Ready Experience

- **Lighting:** Natural light is ideal, but if unavailable, bright, adjustable artificial lighting is necessary.
- **Ventilation & Temperature:** Heat tools and multiple people can make the room hot — good airflow is important. Dress steaming should be in a separate room from hair & makeup!
- **Electrical Outlets:** Have multiple outlets or power strips to avoid delays.
- **Separation of Open Spaces:** The photographer can take details shot in your bedroom, while glam takes place in the living area.
- The more space, the better for a calm and organized morning.
