letter from the publishers

Here at the Amarillo Club, we have the privilege to collaborate with some of the best vendors in the Texas Panhandle. In the following pages we hope to illustrate how creative, elegant, and delicious your wedding can be at the Amarillo Club with a great team behind you.

We are so excited for you to see the gorgeous gown and party dress Ruthette's picked out for our shoot, as well as the mind-blowing floating cake crafted for us by Amarillo Club Executive Chef, Lauren Whitledge. Graham Brothers Jewelers also showed up and showed out with some serious bling for our take on this year's bold color trend, pink diamonds and pearls for the win!

As always, we've got something for the fellas, tuxes and ties from Raffkind's. Avant Garden pulled out all the stops with a special ceiling installation, stunning from all angles. Brides considering a videographer will want to check out our video link from 41 Productions and you can't miss the cover-to-cover stunning photos in this issue from the ridiculously talented, David Williams.

So for all of the brides to be, cruise the pages, enjoy your engagement, and let us help you plan a day as distinct as you are.

As always, Happy Planning!

Tarah and Judith

Photography*

The photographs from your wedding are destined to be cherished for years to come. David Williams is a photographer that will work with you to immortalize your wedding with beauty and creativity.

“Several years ago, my wife and I decided to do what we feel God was telling us to and go ahead with photos. We are so glad we did. It has been so much fun and so fulfilling. My wife Bonnie is my partner in the business, my best friend, and pretty much the best person I know. We have three wild and crazy kiddos. Emery, Luke, and Ada keep us super busy and laughing most of the time. They are all full of energy and personality! We love photos, people, and life, and pray that shows up in the photos. Although we both feel called as educators, our full-time responsibility, we also feel called to try and capture memories the best we can in an affordable manner. We would love an opportunity to work with you. Let's talk!”
