Medical Services

Our paramedics and medical providers support your operations by integrating as a highly-functional member of your team and implementing a high standard of industry-recommended equipment, medical supplies, and customized clinics based on your needs. Mishandling a minor incident can escalate quickly and cause unnecessary loss of work, costly recordables and avoidable medical emergency flight evacuation costing companies substantial burden to their bottom line. Our paramedics have the experience and knowledge necessary to treat patients on-site whenever possible and to evacuate a case only when necessary. Ensuring your organization does not receive any paramedic led recordables from P3 Global Personnel, retaining your staff, our capabilities ensure the wellbeing of your personnel is protected. We work to increase offshore drilling and safety standards, reduce medical costs, enhance HSE performance and maximize personnel efficiency.

Medical Kits

With client specifications at hand, all P3 medical kits are designed to be an efficient resource in remote environments. Depending on requirements, we can provide clients with US FDA-certified and locally sourced medical equipment, pharmaceuticals, vaccines, medical kits, clinics, and other supplies.

24/7 Telemedicine Support

P3 Paramedics are supported by Telemedicine, which provides medical direction by practicing, U.S. board-certified medical professionals.
