## Breeze Digital Signage Media Player: 100-BRZ

The 100 Breeze Digital Signage Media Player is a simple way to deliver digital signage content using efficient methods and Android OS. Breeze uses HTML5 Powered software that has unbeatable playback reliability and security, with an intuitive and simple user experience.

The 100-BRZ features a compact form factor, a noiseless, fanless, Solid-State Design, and a remote included for setup.

### 4K Output | High Performance HDMI

Uncompromised, superior picture resolution based on the 4K standard of 3840x2160 @ 30fps with one HDMI output.

### HLS Streaming

Playback of reliable real-time streams or streams from a robust web-based media platform.

### User Friendly Design

Easy to use software and hardware combine for a high quality digital signage experience.

# Breeze Digital Signage Software

## Easy to Use and Compatible

Breeze is simple and easy to use, featuring a drag and drop interface, easy file uploading, and smart widgets for a variety of customization features. The best part? Breeze is cloud-based, so it can be updated from anywhere, anytime with an internet connection, with unlimited users. Additionally, Breeze can work with a wide variety of networks, from wired to wifi to cellular, we have you covered.

## Safe and Secure

Breeze is designed with encrypted data to keep your information secure using SSL/TLS security. This allows Breeze to be installed in many locations without the need for any special network configurations. Upload and download with peace of mind: you're secure with Breeze!

## All Inclusive

Keywest Technology has developed an all inclusive digital signage software, containing our Breeze Digital Signage Software, a cloud-based server, a media player, a perpetual hardware warranty, and Breeze TOTALCARE, our superior technical support coupled with automatic updates to your software and more.

## Top-Notch Service and Support

Keywest Technology is a small, unique team with your best interests in mind. We offer incredible customer service, technical support, and product education, so you will be well taken care of every step of the way. We have worked with a variety of companies successfully for many years, and look forward to many more!
