custom regimens + makeup lessons

“Brielle helped take away all of the barriers that prevent me from doing a proper skincare regimen. Simply, a wonderful experience.”

“I needed someone who could get to know my personality and make recommendations based on ME, and Brielle did exactly that. She came bearing small gifts, the wealth of her knowledge, and an easy going personality.”

“On top of learning so many new techniques and kinds of products that are out there, I now have a go-to make up routine that I’m comfortable applying and makes me feel confident in my appearance.”

Hey there!

I am so excited to take you through **Beauty Therapy**, my signature program for custom regimens and makeup lessons.

This is more than a fun experience. It is designed to fix issues and help instill confidence in yourself.

During Beauty Therapy, you will learn to care more for YOU by letting me guide you to the proper skincare and makeup products while teaching you to use them in the right way. We will work together to build a strong foundation through hands-on instruction where you will learn professional makeup techniques and appropriate skincare layering.

I have split my coaching up into 2 options: one that is product-focused and designed for you if you need a new & effective regimen created by a pro (me!), and a second option that includes a hands-on makeup lesson along with a custom regimen.

I love Beauty Therapy because of all the benefits it offers to my clients, and I cannot wait to work with YOU.
