

Wedding Photography

2025 Collection Guide

About

The Photographer

I specialize in Lifestyle Wedding photography. The reason why I specialize in lifestyle photography is because I love capturing more of the fun, raw moments.

Sometimes pictures can make you look too unnatural which doesn't capture the true you. Does your dad make you laugh all the time? Capture a real father daughter moment!

Lifestyle photography is a mixture between posing and candid moments. I like capturing natural posed portraits and the candid raw moments you don't expect.

I feel my style is different from other photographers because of the balance I have in my work. I believe you should enjoy your day and allow me to capture those real and raw moments but at the time same have those creative and beautiful portraits to hang on your wall.

What To Expect

You probably have not hired a professional photographer before. So what can you expect during this process? Here is an idea of what your experience would look like with Kayla Isabelle Photography!

Booking

You are ready to take that next step to book & get started on a fun road!! How do you reserve your wedding date? Easy! A Wedding Photography contract will be sent to you to complete & return as soon as possible. Along with an invoice for the non-refundable booking fee of \$1000. Once both have been received, a confirmation email will be sent! Then the fun begins! We get to plan the engagement session!

Engagement

No couple is the same! So why should your engagement session be? The moment is a chance to share what makes you two unique. Before this session, we will work together to brain storm to create gorgeous photos!

Wedding Planning

Here is where you can expect more from me! This is not a time for your photographer to disappear! If you have questions, I am available 24/7 to my brides to assist in anyway possible. A month before the wedding, I will reach out to you to start communication of the big day. The remaining balance will be due 1 month before the wedding day.

Wedding Day

Woohoo! Wedding day is here & I am ready to capture it for you! I hope by this time I am no longer just your "photographer" but a friend to you. As a friend, you are in good hands. I arrive early to talk to vendors & check out lighting. Throughout the day, I will be providing prompts to make the candid moments natural but beautiful!

Collections

Each Wedding Collection represents the couple who chose it and is made up of elements of their love story. To accommodate all couples, my collections are flexible and customizable. After all, you are building your own photo masterpiece that will be on display for years to come. If there's something specific you are looking for, don't hesitate to ask. I try to work with each couple as much as possible.

Testimonials

“Kayla was our photographer for our wedding and we were so incredibly happy we chose her to document our big day! From our first message, the engagement photos, to wedding day Kayla was so lovely to deal with and made us feel so comfortable. Spending our wedding day with her felt like we were hanging out with a friend, she fit in with our day flawlessly! Our friends and family are still raving about how much they enjoyed her presence as well! Cannot recommend Kayla or her work enough!!!

- Erin and Steven

”

"We had the pleasure of having Kayla as our wedding photographer, and I cannot say enough good things about her!! After seeing the photos Kayla took as my friends wedding photographer, I knew I wanted her to photograph ours! I'm so thankful I did, because I love our photos SO much! She captured everything about our day so perfectly, providing us with the most stunning memories. Kayla herself is such a lovely person and made us feel so comfortable right from the beginning! She truly went above and beyond for us. I would recommend Kayla to anyone, and will have her capture more photos for us in the future!!"

- Kim and Scott
