# About Us

BSA Seafood has been a trusted wholesale seafood distributor on Maryland's Eastern Shore since 2006. Based in Grasonville, we are your direct connection for fresh and frozen seafood products from the Chesapeake Bay and around the globe — serving restaurants, grocery stores, hotels, hospitals, schools, and institutions across the Mid-Atlantic region.

From our shores to your doors, we deliver consistent quality with every order. With an established logistics network and deep relationships with fishermen and suppliers, we guarantee availability and on-time delivery of the freshest seafood — both seasonally and year-round. We operate under the US Federal Food and Drug Act and HACCP Guidelines, so you can trust that every product meets the highest standards for safety and quality.

## Our Values

Quality comes first at BSA Seafood. We believe our customers deserve seafood they can stake their reputation on — whether it's a five-star restaurant plating jumbo lump crab or a neighborhood grocery stocking fresh rockfish for the weekend. That's why we personally stand behind every product we sell, sourcing from trusted fisheries and inspecting for freshness at every step.

We also believe in the power of relationships. Many of our customers have been with us since we opened our doors, and we treat every account — large or small — with the same level of care and attention. When you call BSA, you talk to real people who know seafood and know your business. That's not a slogan — it's how we've operated for nearly two decades.
