## mains

The reason why you're here. Choose your tan type. Let's get you glowin'!  
Comes with choice of side and dessert.

☐ **The Standard / \$64**

Rinse Time: 8-10 hours. Our signature medium to dark bronze. For the clients who don't mind sleeping in their tan. Must be willing to lounge around and marinate.

☐ **The Express / \$74**

Rinse Time: 1-4 hours based on your desired tan level. You choose your darkness, but you've got places to be! This tan is for our busy Bs, or for those who simply don't want to sleep or sit in their tan for hours.

☐ **The Double Dark / \$84**

Rinse Time: 2-6 hours, but we recommend 6 hours for our darkest bronze. She's dark, she's golden, and she's glowing. Like, "just got back from the Bahamas" glowing.

☐ **The Clear Express / \$94**

Rinse Time: 1-5 hours based on your desired tan level. This tan has no cosmetic bronzers so it goes on clear, which means no transfer to clothing - perfect for brides. This one's also for those who have skin concerns like dark spots, sun spots, or enlarged pores that you don't want to darken; or if you have to get back to work and you don't want your boss to get suspicious of your "doctor's appointment."

☐ **The Clear Double Dark / \$104**

Rinse Time: 5 Hours. Just like the Clear Express, but darker. This one's for the client who likes to be dark, but wants to reap all the benefits of a clear tan.
