your shoot with me!

1. A day before your shoot make sure you drink lots of water and have enough hours of sleep! Your face will be bright and rested
2. If you are applying the make up yourself- please use light under eye concealer - it will make your eyes bright. Start with stronger eye and nude lip. Bring red lipstick with you. It will help create multiple looks.
3. Bring few outfits. We will choose the ones which photograph the best. Bodysuits/separates will be the optimum choice. No babydolls. High heels add glamour to any photo. If you like jewelry bring few pieces. Stockings look extremely sexy as well as garters.
4. Make sure your hair looks fresh. Curls look great on photos.
5. I have long strings of pearls- if that is your jam. They photograph well if we do nudes.
6. One of the outfits can be "nude". As long as it's something you want to do. We can do "in the sheets" look, or suggestive with no actual parts visible.
7. Make sure to bring nude/black panties just in case.
8. I always take few portrait style images which are "safe" to use on social media if you need.
9. I love detail shots, and we can discuss as we shoot.
10. Most important- be excited! This shoot is about you and only you! I will guide you and instruct you. It will be lots of fun- I promise.

Looking forward to our session.
