Step One

Access

You need a www.canva.com account and an internet connection to edit this template. If you don't have a Canva account yet, you will need to register a free account before being able to open the template.

To access the template, go to the last page and click the template link. This will open a Canva landing page. Click the “**use template**” button below the template preview. This will automatically create a copy of the template and save it to your Canva account. You can now edit you template!

Step Two

Edit

Canva is a great tool for beginners and it's very intuitive to use. If you need some help getting started, you can visit the Canva Design School for some video tutorials on how to add images, change colors, edit text and much more.

Step Three

Download

In the top right corner, click the “download” button (arrow facing down). A dropdown will open. Select JPG file type from the dropdown (saving your image as PNG will result in the image file being too heavy for mobile and web use). Select template pages you wish to download from the “select pages” dropdown. Click “**Download**”. That's it!
