MY PHILOSOPHY:

I am sure you are already overwhelmed with planning your wedding whether you just got engaged an hour ago or 5 months ago!

You want your big day to be **PERFECT**, but there's a lot of decisions that need to be made in order to make that happen: from forming your bridal party and picking out color schemes to hiring a DJ and Photographer... it's **A LOT...** simply to get married!

My goal is to take as much stress away as possible so that you can focus on the ultimate goal of your wedding day - **MARRIAGE**! My extroverted and enthusiastic personality + calm and compassionate spirit have allowed me to put out a lot of "fires" so that you can enjoy the planning as much as possible and take in every second of your big day! So, yes, you can trust me to capture every little moment with my trusty Canon 5d Markiii so that you can look back on the biggest day of your lives for years to come.

THE PROCESS:

Not only are you choosing someone to trust to capture every aspect of your wedding, you're also choosing who you're going to spend the majority of the day with besides your bridal party. More than making sure that you get along with them, you want to get to know them a little so you know that you'll **ENJOY** being with them!

That's why I always schedule a meeting after I receive your wedding inquiry so that we can get to know each other over coffee or lunch before you even book! I want to make sure that we're a good fit and that we're on the same page about what to expect from each other both before and on your big day. After we meet and you decide that I'm what you're looking for, you'll sign a contract that I'll send you and put a 25% deposit down! Then we get to start planning your engagement photos and curating your wedding timeline! You may even get a surprise from me ;)
