Blanket & Fluid Warming Cabinets

Enhance patient comfort by maintaining normothermia from admission to discharge. Designed to thoroughly heat and maintain IV fluids, irrigation fluids, and blankets to healthcare or manufacturer temperature guidelines, Skytron's broad range of warming cabinet configurations also meet storage, space, and application requirements throughout a facility.

Simplify tasks and enhance convenience with choices of remote temperature monitoring, touch screen control, or glass doors for visualization. Our touchscreen option offers unparalleled technology by allowing remote connectivity to a warmer (via computer or smartphone app) and giving you control of your warmer wherever you are. The cabinets are available in single and dual-chamber units.

Stainless Steel Sinks

Work hands-free with our standard knee-kick control on our stainless scrub sinks. Preset water temperatures are dispensed automatically and the aerator can be adjusted to provide either a stream or rosette spray. Skytron sinks are built to last with our high-quality stainless steel throughout the entire structure, reducing the risk of corrosion or deterioration overtime. This efficient design lengthens product life while lowering the total cost of ownership.
