

MODULE 4

Naturalization of Indoor Spaces

PRIVATE HOUSES, OFFICES, SHOPS

Nature-infused interiors designed to enhance physical well-being and emotional balance.

CLIENTS & INVESTORS

Designed for homeowners, business owners, conscious developers, and institutions looking to integrate nature into their indoor spaces.

Ideal for investors who prioritize creating environments that enhance human well-being through healthy architecture.

IMPACT & GAIN

- Enhances well-being, productivity, and calmness through biophilic design.
- Uses sustainable materials and designs to create eco-friendly, healthy spaces.
- Positions your space as a forward-thinking, nature-connected environment.

DELIVERABLES & PROCESS

1. **Conceptual Design** – natural light flow, material palettes, indoor nature features, sensory mapping
2. **Detailed Design** – technical drawings, sourcing guidance, and schematic visualizations
3. **Process** – Online meetings, revisions, and on-site assessment
