

# 7 REASONS CLEARLIGHT IS WORTH THE INVESTMENT

By Jane Box

## 1. YOU GET MEDICAL- GRADE DETOX AT HOME.

---

Most saunas only penetrate skin deep—Clearlight's True Wave™ technology combines carbon and ceramic to go 1.5" deep into tissue, gently mobilizing heavy metals, mold, and toxins you can't "sweat out" at the gym.

## 2. YOU'RE PROTECTED FROM HIDDEN EMF EXPOSURE.

---

While many brands market as “low-EMF,” Clearlight proves it with shielding down to 0.05 mG at seat level—barely traceable. That’s critical if you’re detoxing or healing from mold, Lyme, or neurological issues.

### 3. FULL-SPECTRUM HEALING IS A NON- NEGOTIABLE.

---

Clearlight's Sanctuary line offers continuous near, mid, and far infrared. You get skin-plumping collagen support (near), deep muscle and joint therapy (mid), and core detox (far)—no rotating bulbs or zone limitations.

## 4. IT'S BUILT LIKE A HEIRLOOM, NOT A HOTBOX.

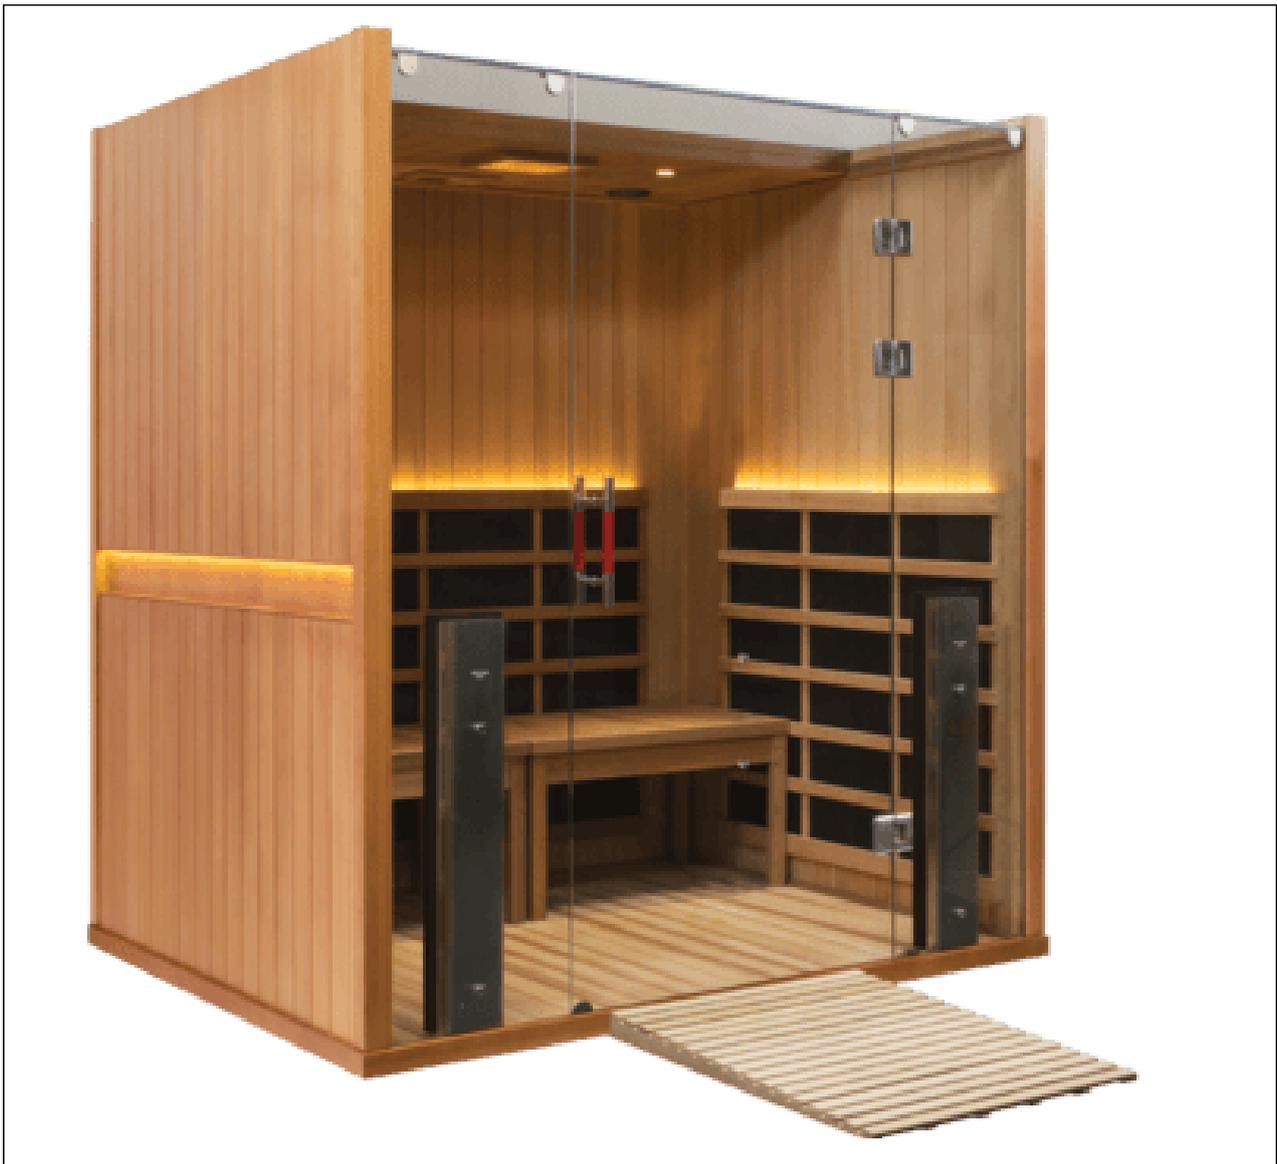

Made from eco-certified mahogany or cedar, with tongue-and-groove cabinetry and non-toxic glues—this is the Rolls-Royce of wellness craftsmanship. It looks stunning in your home, not like a boxy eyesore.

## 5. EVERY INCH IS DESIGNED FOR RELAXATION.

---

Bluetooth audio, chromotherapy lighting, ergonomic backrests, device cradles, and optional salt therapy—Clearlight isn't just a sauna; it's your escape hatch from stress.

# 6. IT'S COVERED FOR LIFE.

---

Clearlight offers a limited lifetime warranty on the entire system—not just the heaters. That's a big deal when you're investing \$5K–\$9K in your health.

# 7. IT WORKS. PERIOD.

---

From sleep to skin, energy to immunity, the real-world results speak for themselves. Thousands of reviews back up what the science already says: infrared therapy is one of the most powerful healing tools we can access daily.
