

## Organic Additives Menu

*Available with a doctor's prescription*

### **Coffee (\$30)**

Purelife 100% Organic Enema Coffee is widely used to assist the liver in eliminating toxic residues and free radicals from the bloodstream, increasing glutathione, promoting cellular regeneration, and supporting increased energy and antioxidant activity.

*24-hour notification required*

### **Greens & Chlorophyll (\$20)**

Sixteen green superfoods rich in vitamins, minerals, trace minerals, antioxidants, and enzymes that support immune system function, cellular health, digestion, elimination, and overall energy.

### **Electrolytes (\$20)**

A balanced blend of minerals essential for muscle, heart, and nerve function. Replenishing electrolytes helps maintain hydration and overall comfort during daily activity.

### **Probiotics (\$20)**

Vegan Microbiome Probiotic Complex provides over ten billion live organisms from ten vital probiotic strains and prebiotics to help establish and maintain a balanced microbiome. Offers support for immune function, gut integrity, and the repopulation of microflora after antibiotic use.

### **Parasite Cleanse (\$20)**

A blend of pure wormwood and black walnut hull tinctures that supports the elimination of parasites, fungus, and unfriendly bacteria. Often chosen to help address gas and bloating, skin concerns, brain fog, migraines, exposure to unwanted organisms, and joint discomfort.

### **Garlic (\$20)**

Kyolic garlic is widely used to boost immunity, fight off viruses, and increase vitality. Contains antimicrobial phytochemicals that help suppress bad bacteria and encourage the removal of foreign invaders. Often selected for its cleansing qualities.

### **Lemon (\$20)**

Known to support natural movement and ease within the digestive system without irritation. Its naturally acidic profile helps encourage balance and a more neutral internal environment, promoting overall comfort. Lemon can be a good choice for those with chronic constipation.
