# The experience

*When you book your senior photos with me, it's my personal mission to make your photo shoot one of your favorite senior year memories. Your confidence is going to be off the charts when I'm done with you! The cool thing about a custom portrait experience is that you have the time & attention to show the true you.*

*Let's get creative and include the things that light you up. Art supplies? Your horse? Best friend? First car? Pet snake? I'm up for anything!*

*I want to create a set of images that you are absolutely OBSESSED with! No cringey props, awkward poses, or fake smiles here. You are in good hands!*

*Professional hair and makeup is included so you truly don't have to worry about a thing! You'll be looking and feeling your best on the day of your big shoot.*

*I'm not just your photographer. I'm your hype girl, personal assistant, and emotional support person. Once you meet me, you'll realize you have nothing to stress about. I'm bubbly and super laid back, and you can trust that I will capture you the way YOU want to be seen.*

*I have a million ideas and will give you 110% direction when it comes to posing. Show up as your best self, relax, and leave the rest to me. We are going to have so much fun!*

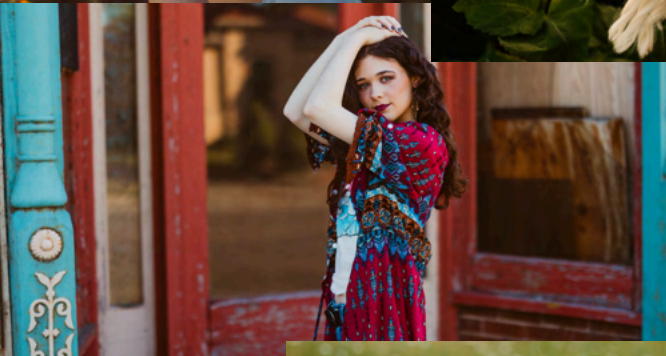

FOREVER IN LOVE WITH LAUGHING PHOTOS

A MOM'S HONEST

# Review

*I have looked at {Myah's session album} closely several times. I wept openly the first time, and each time after, I have teared up again because I have never seen anything so beautiful in my life!*

*She is such a unique person, and your ability to capture her personality and free spirit in this collection of photos is indescribable!*

*I can't thank you enough for accommodating us so late in the season, and I will be sure to spread the word to any parents serious about getting quality senior pics that truly capture the essence of their graduate's personality.*

*You nailed it, and we are beyond satisfied with the results!*

*-Jeannie, Myah's Mom*

# THE PERFECT session

Together we'll plan a unique shoot that tells the story of you - your style, your passions, your personality. Seeing yourself in a new light is an experience you'll never forget.

One week after your session, you'll have an ordering appointment. This is when you come to the studio and see all of your photos on the big screen. You'll choose and pay for a collection at this time. Your digitals can be ready the next day, with physical products ready 6 weeks later.

You can check out individual print prices to the right, and the collection options are listed on the next page.

In addition to the built in savings of the collections, you'll also get 50% off small prints with the purchase of any collection.

The session fee of \$375 is paid at the time of booking. This includes your session time, all the planning, as well as hair and makeup. Digitals and prints are not included in session fee.

A MOM'S HONEST

# Review

*Holly - I cannot thank you enough for the experience we had with you this evening. Thank you for seeing the strengths in Kenzingtin and I am sure you have captured her beyond anything we can imagine. Your professionalism, innovation, and creativity were such a beautiful mix.*

*She said to me on the way home... how pretty she felt today. It was so good to see her smile.. and not worry so much about the world. You have no idea how much you made a difference in her life tonight. And for that I will forever be grateful.*

*I just really wanted to share the impact this evening has already made on her. As a parent I am sure you can attest to those moments when other people do great things for your own children. Again... forever grateful - thank you from the bottom of my/our hearts.*

-Gina, Kenzingtin's Mom
