CLINICAL EXPERIENCE

- 07/25-Current ***America's First Responder Services***
Placer County, CA
Founder and Clinical Psychologist
Duties Provide evidence-based therapy and psychological care to first responders, active-duty service members, veterans, frontline professionals, and their family members across California. Services include trauma-informed therapy, comprehensive psychological assessments, and department-level consultation and wellness program development. Each offering is designed to foster resilience, reduce stigma, and enhance mental health across high-stress professions.
- 08/24-Current ***VA Northern California Health Care System – Martinez VAMC***
Martinez, CA
Clinical Psychology Postdoctoral Fellow
Duties *PTSD Clinical Team (PCT)*
Provide Cognitive Processing Therapy (CPT), Prolonged Exposure (PE), Concurrent Treatment of PTSD and Substance Use Disorder Using Prolonged Exposure (COPE), Integrated Cognitive Processing Therapy for PTSD and Substance Use (I-CPT), and Witten Exposure Therapy (WET) to veterans with both combat- and non-combat-related trauma. Implement Models of Accelerated Service Delivery (MASD) protocols of CPT and PE. Conduct intake assessments involving the CAPS-5 and other additional measures to assess for co-occurring

concerns such as depression, anxiety, and cognitive deficits. Engage in treatment planning and measurement-based care. Provide supervision to practicum students and interns.

David Grant USAF Medical Center (DGMC)

Provide group treatment and brief, solutions-focused psychotherapy to active-duty service members with acute psychiatric symptoms in a 12-bed, locked inpatient unit that is jointly managed by the U. S. Air Force. Conduct clinical interviews, cognitive screenings, risk evaluations, and comprehensive psychodiagnostic assessments to inform diagnoses and treatments. Attend interdisciplinary meetings and collaboratively engage in treatment planning.

07/23-07/24

VA Northern California Health Care System – Sacramento VAMC

Mather, CA

Clinical Psychology Predoctoral Resident

Duties Behavioral Health Intensive Care Unit (BHICU)

Provide group treatment and brief psychotherapy to veterans with acute psychiatric symptoms in a 16-bed, locked inpatient unit. Conduct clinical interviews, cognitive screenings, and comprehensive psychodiagnostic assessments to inform diagnoses and treatments. Conduct risk and capacity assessments within the emergency department. Attend to patients on the medical floors with mental health concerns. Provide supervision to two practicum students. Attend interdisciplinary meetings and give at least two presentations to staff and residents.

Behavioral Medicine (BMED)

Provide interventions to assist patients that are adjusting to chronic and life-threatening illness. Implement evidenced-based practices with patients experiencing depression and anxiety related to their medical diagnoses and/or treatments. Promote lifestyle and health behaviors changes, as well as enhance medical adherence among patients. Evidenced-based psychotherapies provided include CBT-I, CBT-CP, motivational interviewing (MI), and CBT for chronic illness. Co-facilitate the cardiometabolic risk group and CBT-I group.

Behavioral Health Interdisciplinary Program

Administer weekly psychodiagnostic and/or cognitive assessments to assess for various diagnoses such as personality disorders, mood disorders, anxiety disorders, and attention deficit hyperactivity disorder. Utilize various assessment measures, score assessment batteries, and write integrated reports. Engage in evidenced-based treatments such as dialectical behavioral therapy (DBT), cognitive behavioral

therapy for insomnia (CBT-I) and chronic pain (CBT-CP), and CPT. Conduct a program evaluation project evaluating the referral process from BHIP to PCT in an effort to improve access to care for veterans and decrease workflow waste.

PTSD Clinical Team (PCT)

Provide CPT, PE, COPE, and cognitive behavioral conjoint therapy for PTSD (CBCT-PTSD) to veterans with both combat- and non-combat-related trauma. Conduct intake assessments involving the CAPS-5 and other additional measures to assess for co-occurring concerns. Engage in treatment planning and measurement-based care.

07/22-06/23

James H. Quillen VAMC-Posttraumatic Stress Program

Johnson City, TN

Externship Clinician

Duties Conduct PTSD intakes utilizing the CAPS-5, as well as other screening measures. Implement CPT, PE, and PTSD 101 with veterans diagnosed with PTSD and other comorbidities. Co-facilitate the moral injury group. Participate in weekly supervision and interdisciplinary meetings.

01/22-06/23

First Responder Mental Health Specialty Clinic

Johnson City, TN

Independent Study Clinician

Duties Developed and implemented a new vertical integration clinic focused on providing individual therapy services to first responders (e.g., law enforcement officers, firefighters, etc.), veterans, and their family members within the community. Conduct intake assessments, pre-employment screenings, and fitness for duty evaluations for various departments in the region. Perform empirically supported treatments including but not limited to PCT, PE, CBT, and MI. Assist departments in creating and implementing behavioral health strategies and program to better support the mental health of their first responders.

12/21-05/23

ETSU Family Medicine, Addiction Medicine Clinic

Johnson City, TN

Research Clinician (2-3 hrs/wk)

Duties Provide contingency management treatment to individuals diagnosed with a stimulant use disorder within an integrated primary care setting that serves patients with health disparities from rural and low-income populations. Engage participants in attending sessions two times per week. Sessions include administering and interpreting saliva toxicology testing and discussing substance use. Ensure treatment participants complete appointments and follow-ups. Participate in weekly supervision meetings.

- 07/21-07/22 ***Cherokee Health Systems***
 Morristown, TN
 Externship Clinician
Duties Conduct intake assessments and perform empirically supported treatments and psychotherapy with adults exhibiting varying presenting concerns within a federally qualified integrated care setting. Treatments include but are not limited to CPT, ACT, DBT, interpersonal psychotherapy, CBT, and PE. Facilitate day treatment group, which involves a strong emphasis on psychoeducation and skills training to assist patients with varying diagnoses in achieving successful independence. Make appropriate referrals to psychiatry, primary care, and case management. Participate in weekly interdisciplinary treatment team meetings and attending professional development didactics.
- 01/21-08/22 ***ETSU Behavioral Health & Wellness Clinic***
 Johnson City, TN
 Practicum Clinician
Duties Conduct intake assessments and perform empirically supported treatments and psychotherapy with adults, children, and families with varying presenting problems. Treatments include but are not limited to CPT for posttraumatic stress disorder, MI for substance use disorders, CBT for generalized anxiety disorder, ACT for generalized anxiety disorder, and parent training for oppositional defiant disorder. Conduct psychodiagnostic assessments and writing integrated reports.
- 07/17-04/19 ***California Youth Crisis Line***
 Sacramento, California
 Crisis Counselor
Duties Provide crisis intervention to youth between the ages of 10-24. Assess for suicidal ideation, engage in safety planning, implement de-escalation skills, and provide community resources for further support. Educate individuals on youth mental health adversities through community and school events.

RESEARCH EXPERIENCE

- 08/19-06/23 ***Graduate Research Assistant & Lab Coordinator***
 Department of Psychology, East Tennessee State University
Duties Investigate the mental health repercussions rural first responders experience. Evaluate the prevalence rates of PTSD and substance use within the first responder population. Conduct qualitative and quantitative analyses. Conduct clinical interviews for research protocols including the CAPS-5. Interview and train undergraduate research assistants. Write and maintain IRB protocols. Facilitate manuscript production

through project conceptualization, data collection, data cleaning, data analyses, and manuscript preparation. Present research findings at various conferences.

PI Meredith Ginley, PhD

09/18-05/19

Post-Baccalaureate Research Assistant

Department of Psychology, University of Nevada, Reno

Duties Study the effects of exposure therapy and safety behaviors on individuals exhibiting phobias. Recruit participants and administered exposure therapy. Implemented behavioral approach tests. Film and edited treatment videos. Conduct literature reviews. Construct and edit surveys through REDCap.

PI Cynthia Lancaster, PhD

01/17-07/19

Undergraduate Research Assistant

Department of Psychology, California State University, Sacramento

Duties Study the effects of paternal disengagement on women's risk-taking strategies. Analyze methodological techniques relevant to the topic of study and applied findings to the current research topic. Engage in design and implementation of study. Develop the IRB application. Construct and edit surveys through Qualtrics. Collect and analyze data via SPSS. Contribute to the write-up and editing of manuscripts. Present research findings at a local conference.

PI Lisa Bohon, PhD
