Frequently Asked Questions

What should we wear for our Santa experience?

We suggest light colored pajamas or night gowns. We encourage everyone to participate so Mom and Dad should come dressed for a few moments in the spotlight as well. We also suggest nice Christmas clothes with white, cream, red, green and black colors as well.

Can we have more than one family in the session?

The Santa Experience is designed to progress in a certain order, capturing memories of your family along the way. When there are multiple families, or grandparents with grandchildren from different families, it takes more time to capture those memories. In those cases, we suggest scheduling two sessions back-to-back. This will insure that each family has enough time for their own pictures, as well as group photographs.

Do you allow pets?

We consider pets as part of the family, so feel free to bring them with you. All pets are required to be on a leash or in a carrier until they arrive. We recommend bringing a favorite toy and some treats.

What can I do if my child is afraid of Santa?

One of the benefits of having a private 45-minute session is that there is usually ample time for hesitant children to warm up to Santa. Santa and the photographer have several techniques to help children feel at ease. However, we suggest limiting the number of people you bring to watch the sessions. If you are worried that your child might be uncomfortable, please let us know in your pre-session questionnaire so we adjust our mannerisms to the needs of your child. For example, a quiet greeting versus a loud, excited "ho-ho-ho."

What does my \$500 fee go toward?

The \$500 session fee covers Santa's fee, time in the studio and \$200 of that fee goes towards your order.

Frequently Asked Questions

Can we take our own pictures or video?

Sorry, we do not allow any photography during your session. The photographer will alert you when it is a good time to capture a few moments of video. Please instruct any guest with you to refrain from taking photos or videos during the session.

When do we see our images?

After your session, we will schedule a time for you to return for your personalized viewing and order session. If you are an out-of-town guest, please email us so we can make arrangements for you to view your images the same day.

Can we place our order online?

We do not review images online. We offer a wide range of products to display your custom artwork, there is no way to show these items online. If you are from out-of-town we will work to schedule your consultation the same day.

How long does it take to get my order?

Once you select, fully pay, and approve the edits on your images and album layout, it typically takes about 2 weeks to arrive. Custom items can take more time. We do our best to rush Christmas cards and small prints, but cannot guarantee delivery if ordered after Thanksgiving. We suggest booking early in the season to receive your items before Christmas. In addition, depending on your order, approvals that are returned to us quickly are helpful for fast turnaround times on your items.

Do you provide digital files?

We provide digital social media files for images that you purchase. Watermarked social media files may be posted on Facebook, Instagram, or other social media sites.
