about

Your wedding will always be one of the most memorable days of your life and one that you will treasure forever. Most couples will spend months, if not years, planning for this special day. This is why it is so important to find a photographer that will capture your special moments.

Every smile, every heartfelt exchange, and each precious detail are meticulously preserved to create a narrative that goes beyond the surface. With me as your photog, your day evolves into a timeless tapestry of emotions, ensuring that the essence and significance of every moment are vividly retained.

When inviting me in to tell a part of your story, you are allowing me into your relationship. No matter the wedding, elopement, or session, I will capture without reserve everything from the smallest details to the greatest landscape; so when you return to this story you will feel everything. From the last light on the horizon to the messy and playful love, your film will hold memories.

I would describe my style as relaxed, elegant and timeless wedding photography with an emphasis on people and emotions. It's largely documentary or candid; that means that I'll get out of your way and let you get on with enjoying yourselves, whilst grabbing all the weird, crazy, wonderful, awkward, hilarious, emotional moments as your day unfolds.

Attention to detail is a really big thing for me and I love to capture details, so any details that you have from the shoes to jewelry, to the flowers, please let me know if you have anything that is truly sentimental. Not only do I love photographing weddings, I adore the relationships that I often build with couples when we go on this journey.

I pride myself on helping couples with all aspects of their wedding day, not just the photography. I have a pool of suppliers in the wedding industry that I can call upon to help find what you are looking for.

I'm totally convinced the key to getting amazing photos is for you to feel at ease with your photographer, so apart from offering a complimentary engagement session, I will always be available in all your planning stages via direct text, email, phone call, and client portal so we can all keep in touch! I LOVE silly questions, sharing any ideas or questions you might have, the opportunities are endless. I can't wait to share your special day with you, let's have some fun planning!

With love,

Jess

timeline

You do you boo...

Your wedding day is a day that you and your fiancé, family, and friends have all spent an unparalleled amount of time, money, and attention to. It is a day that celebrates you two as a couple and is 100% a reflection of who you both are. I make sure to stress that there is NEVER a right or wrong way to plan the timeline of your wedding day - what is important to YOU is what we will make sure we plan accordingly for. Don't want portraits - fine! Your fiancé wants photos climbing a tree - cool with me!

There is however suggestions and advice that I am more than happy to give from my experience photographing countless weddings over the years. During our "wedding day timeline video chat" several weeks prior to your wedding day, we will button up the flow of your day so that you both wake up the morning of your wedding day with nothing but excitement to nail all the shots we've planned for.
