A NOTE FROM THE FOUNDER, FLORIST AND STYLIST

From just a little girl, I have always had a love for flowers and anything that involved putting my creativity to work. It feels only natural that I found my way into the wedding and events industry. What started out as a side hustle back in 2018 when I launched FF, I quickly found my career calling. I fell in love with creating floral arrangements that made an event even more special and to see my clients reactions when they see their event space, means the world to me! As I established my brand in the events industry and began branching out into wedding florals and styling, I just knew weddings was the area I wanted to focus on and bring all of my skills, knowledge and ideas I had obtained over the past 7 years to couples planning the biggest day of their lives.
