technical data sheet

Multi-Purpose Automatic Transmission Fluid

Product Application:

Beacon Lubricants Multi-Purpose Automatic Transmission Fluid is a fully formulated multifunctional fluid for automatic transmissions. It is recommended for all Ford, GM and Chrysler cars, vans and light trucks. It is also recommended for import cars such as Audi, Honda, Mercedes-Benz, Nissan, Renault, Toyota and Volkswagen.

Multi-Purpose ATF is a Dexron IIIH, Mercon fluid and is approved against Detroit Diesel Allison C-4. It also meets the requirements of Caterpillar TO-2. It provides oxidation stability, as measured in the GM oxidation test, resulting in cleaner transmissions and more reliable operation.

Features and Advantages:

- *Fast circulating in cold weather
- *Excellent low temperature fluidity
- *Outstanding high temperature oxidation resistance
- *Superior friction durability
