

Pipe Sample Request Form

SPECIAL PIPE JOINTS, ELBOWS & FITTINGS | RESPONSE REQUESTED BY OCTOBER 30

MMT is requesting support to enhance our validation database for underrepresented vintage pipe joints and fittings. Underrepresented samples include straight pipe joints manufactured with spiral-weld (SAW or ERW), lap-weld, butt-welded and hammer-welded construction processes. They also include fittings and components of varying geometries including elbows, reducers and tee-joints manufactured with seamless or seam-welded processes. Additional testing and validation with these materials will support nondestructive field testing of in-service material without the need for destructive cut-outs.

Why join this effort? This effort will ensure additional validation for nondestructive testing of assets relevant to the donor's pipeline system. Laboratory and nondestructive test results will be provided to the pipe donors that ship pro-bono the samples to MMT. Donors will also be offered to join an upcoming Joint Industry Program that will include third party validation of the results. The JIP offer will be circulated once sufficient samples are secured. JIP membership will be offered to all sample donors, but it will not be required.

Do you have pipe samples? Yes No

Participation Details

Do you have underrepresented pipe joints or fittings currently in your cutout inventory at your facility or one of your vendor's facility?

Will you be able to provide additional samples as they become available through integrity and construction projects?

Will you designate a contractor to work on existing sample handling or future sample gathering? If so, please provide a name to contact.

Please continue to the next page.

Sample Details (if available)

Please fill in the below details as you are able for as many samples as you'll be providing.

	Vintage	Diameter * Wall Thickness	Manufacturing Process	Weld Type	Shape	Shipping Options	Length of Sample
Sample 1							
Sample 2							
Sample 3							
Sample 4							
Sample 5							
Sample 6							
Sample 7							

Is your company interested in participating in the JIP? Yes No

Thank you! We appreciate your responses and your willingness to donate pipe samples.
If you any additional questions or concerns, please contact Buddy Powers at bpowers@bymmt.com.
