BRIGHTER FUTURES TOGETHER

Advanced Placement (AP) Exams

From May 5th to May 16th, Toronto International Academy held Advanced Placement (AP) exams. AP exams are offered every May through College Board. AP exams help students get university credits while they are still in high school. They are especially useful for students applying to American universities. Students from various schools, including ours, came to TIA to write these exams in our computer lab. Exams including Microeconomics, Macroeconomics, Chemistry, Statistics, U.S History, Calculus, Mechanics, Physics, Psychology, and Chinese Language.

Canada's Wonderland Trip

*** TIA's Unforgettable Field Trip ***

On Friday, May 30th, TIA went to Canada's Wonderland! Wonderland is an amusement mark full of rollercoasters, rides, food and entertainment. Students left the school at 10AM and was at Wonderland until 7PM. The weather was perfect! This trip was the culmination of a year of hard work. It was also a way for our graduating students to celebrate their university acceptances.

BRIGHTER FUTURES TOGETHER

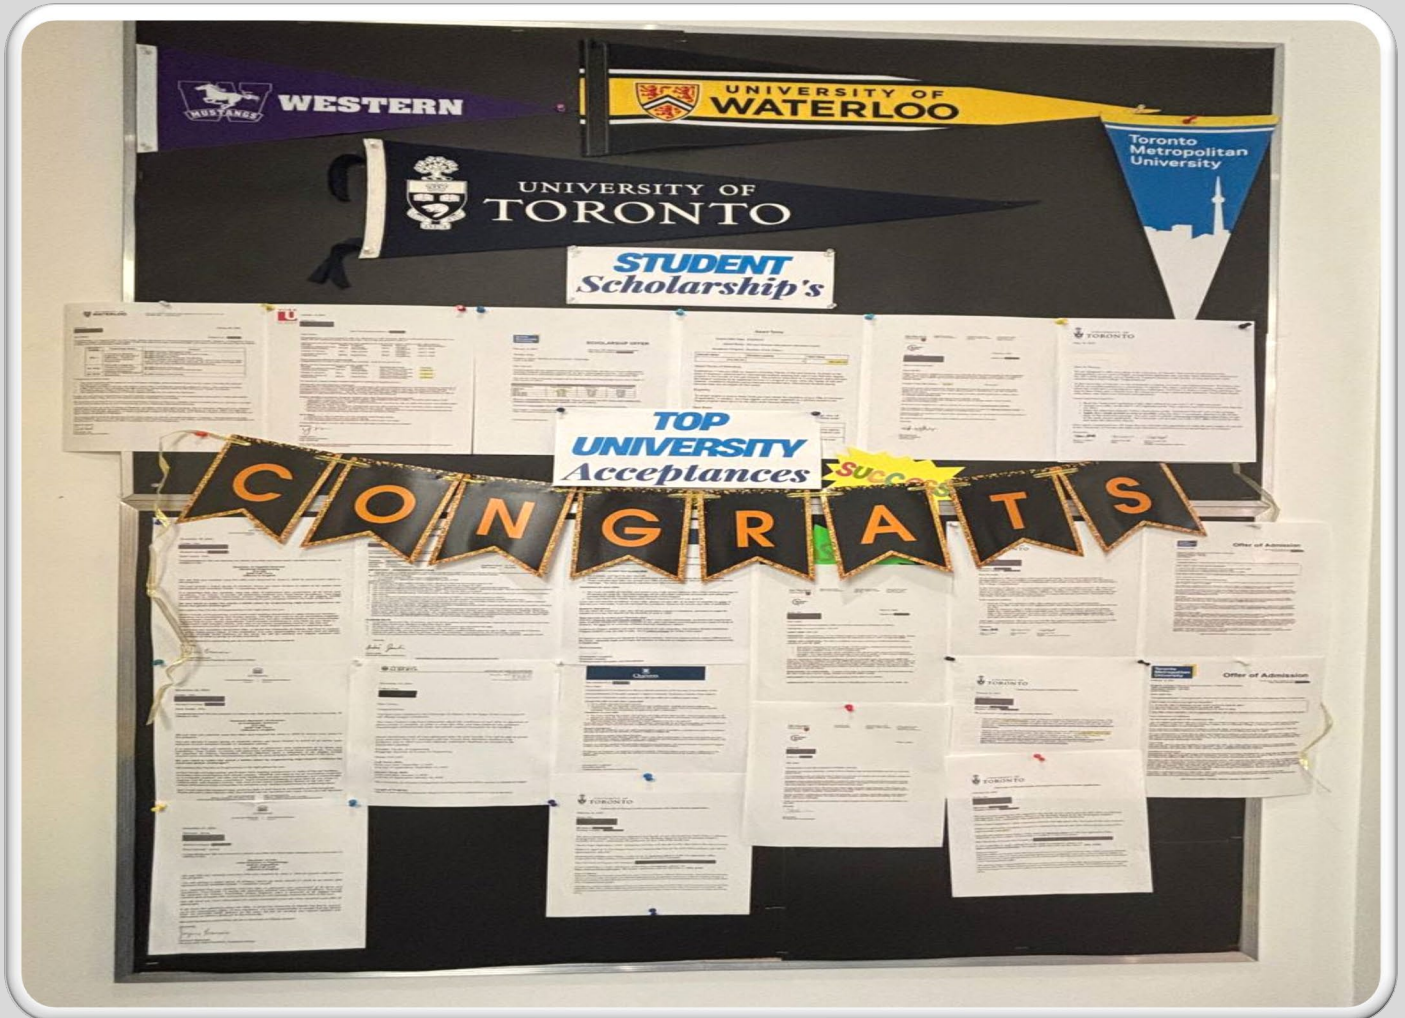

The season of getting Acceptance Letters & Scholarships.

In May, the final offers of admission from universities came in. Students received scholarships from prestigious universities worth up to \$50,000! TIA is committed to helping students with the application process, and we look forward to more success stories in the very near future.

A TIA Alumni getting into MD – Cheers ~.~!

Brenda was a brilliant student at TIA. After completing high school, she earned her RN Advanced Diploma. She is now thrilled to have been accepted into the University of Toronto's MD program—with just her OSSD and Diploma, and without needing to take the MCAT.

This is a first for TIA, and we are very proud that a non-university student can go straight into medical school without writing the MCAT. Brenda worked extremely hard both in school and in hospitals!

Carassauga
Mississauga's
Festival of
CULTURES

Presenting TIA at Carassauga 2025

On the weekend of May 24th, the Paramount Centre in Mississauga held the annual Carassauga convention! This is a multicultural convention where pavilions representing dozens of countries show their dance, food, and culture. TIA had a table in the Chinese pavilion to connect with parents, students, and agents. We thank the Chinese pavilion and Carassauga for hosting us!
