

THREE TIPS FOR DREAMY SUNSET PORTRAITS

1 *Prepare Your Exit Time*

Timing is everything when it comes to incredible sunset pictures! The first key is leaving plenty of time to get you and your husband out of the reception! All your guests will want to greet the happy couple, so factor in some breathing room!

2 *Plan Your Start Time*

Next is the actual time outside! Try to be outside at least 10 minutes before estimated sunset. This will allow your photographer to find the best light and horizon line! Note: If it's a wooded area you'll need to be out much before sunset time as the sun will fall behind the trees!

3 *Prompt Shooting Time*

Finally, the sky changes quick which makes the prime shooting time a small window! So listening closely to your photographer as you go from pose to pose will allow for more stunning sunset shots!
