

Compare

Use this structure when the math main idea of the story describes:

Comparing two separate sets
(groups, measurements)

Example: There are five blue cars and 3 white cars in the parking lot. How many more blue cars are there than white cars in the parking lot?

| | | |
|----------|--------------------|----------|
| 5 | cars (blue) | ? |
|----------|--------------------|----------|

| | | |
|----------|---------------------|--|
| 3 | cars (white) | |
|----------|---------------------|--|
