Milestones and Cake Smashes

*Hi, Friend!*

---

*I'm so excited that you are here!*

*I'm Lauren and I can't wait to get to know you and your family. My favorite thing about being a photographer is really getting to know my clients and photographing families as they grow and change. I would be honored to be the one to document your family's story!*

*Your baby is growing up!*

*The first year of your baby's life is a total whirlwind. They go from an adorable little thing with impossibly tiny fingers and toes and before you know it they are sitting up! And then crawling! And you blink again and they are walking and talking and turning into a full blown toddler.*

*A milestone session takes a snapshot of who your little one is at each stage. So that ten years from now when they are even bigger and filled with lots of attitude you can look back and remember their toothless smile and the chubby thighs. And cake smash sessions are a great way to celebrate making it all the way through that first year!*

## MILESTONE SESSIONS

**\$ 375 . 0 0**

*45 Minute Photo Session*

*Access to Client Closet*

*Online Gallery*

*Digital Copy of Each Image in Your Gallery*

*Print Release*

**\$ 450 . 0 0**

*1 Hour Photo Session*

*Themed Set-up of your choice*

*Online Gallery*

*Digital Copy of Each Image in Your Gallery*

*Print Release*

# Frequently Asked Questions

## Where and when are sessions held?

Cake smash sessions are held in my Springdale, Ohio studio. Milestone sessions can take place either in the studio or outdoors at local parks - your choice!

---

## What do I need to bring to my milestone session?

My studio is stocked with everything we need for beautiful portraits. Both milestone and cake smash sessions also offer access to my baby client closet, so you don't even have to decide what to dress your little one in.

---

## Do you provide the cake for cake smashes?

I provide all the props and theming for cake smash sessions, but you are responsible for bringing the cake (or whatever edible items go with your theme). I have a list of fantastic bakers I can recommend if you need suggestions, or you are welcome to bake your own cake too!

---

## Can parents and siblings be in pictures too?

Although we can grab a couple shots with parents and siblings if you'd like, the main focus of these sessions is on baby.

---

## Who gets to pick which images are included in our gallery?

After your session I look through all the images from your session. I delete any duplicates, images with awkward expressions, out of focus images, and any others that are not up to my professional standards. I edit and upload all those images to an online gallery and you get a digital copy of each of them with a print release.

---

## What if my baby doesn't cooperate?

I try to schedule sessions around your baby's normal happy times and I've learned lots of tricks to get great pictures of even the fussiest babies. I follow baby's lead through the session and take as many breaks as we need for baby to eat or snuggle. If your little one still isn't cooperating with our session even though all their needs are being met, there will be the option to try again another day to get enough images to fill your gallery.

Do you have other questions? Let's chat! I am happy to schedule a phone or zoom consultation to plan your perfect session and answer all your questions. Or you are always welcome to email me at [DrawinginLightPhotography@gmail.com](mailto:DrawinginLightPhotography@gmail.com)
