“Kristy brings an energy to everything she puts her heart into which is contagious and moves people to action. Her passion to help others win at business while bringing balance to their life is an inspiration.”

Todd Watson - CEO SHOWIT

Speaking is what fires me up! I have zero chill on stage! If you are looking for a grinder that came from nothing, had to make some tough decisions and will show others how they can, too - I am your girl! Some said that I would fail. Some said I wouldn't make it on my own. Some say women don't belong in business. Some say that when you come from nothing, you will be nothing. I call B.S.

I genuinely believe that I was designed the way that I am for a reason. I believe I experienced the loss of a loved one at a young age to understand that time is limited. I literally started working at age 6, cleaning houses alongside my mother. I grew up in the middle of three boys and had to learn to fight for my voice and stand up for what I believe in. Fast forward to having my own three boys now and knowing how important it is that they see how a woman can be a successful mom and entrepreneur. All of these experiences have given me the grit I needed to bootstrap our first START company with no investors. By year two, we saw 7 figures in sales, brought home 6 figure salaries and were featured in multiple publications. I have been an entrepreneur for over 10 years and I have seen successes and failures but consider every experience a learning opportunity. If you are looking for someone to talk business, motivate a crowd to action or share productivity or business strategy advice, look no further!
