HOW TO USE YOUR WEDDING PHOTOS

*for beautiful & organized memories*

*I love a beautiful  
heirloom.*

I've always loved heirlooms and treasured possessions. I love the meaning they hold, the legacy they create, and the memories they help us recall.

It's easy to receive your wedding gallery, look through all the photos and relive your day, and then let them stay on your computer or tucked away in a USB. But those photos are part of the legacy of your marriage - so there has to be a better way to use those images to celebrate your relationship and pass those heirlooms on to your kids, their kids, and their kids. There is a better way.

Let's find it.

## *6 Ways to Use Your Wedding Photos After Your Wedding*

1. Send out thank you cards with one of your favorite wedding portraits.
2. Create a gallery wall with prints or canvases from your favorite images.
3. Work with your photographer to create a beautiful, professional-quality heirloom wedding album that you can pass down for generations.
4. Gift prints or parent albums to family members as a thank you for making your wedding day so special.
5. Share your favorite images on social media so that your friends & family can share in the joy!
6. Save all of your wedding-day heirlooms in one special box with a few of your favorite prints and a USB with your wedding photos. *See more about creating an heirloom box on the next page.*

## *Create a Wedding* HEIRLOOM BOX

---

Throughout the wedding planning process, you'll collect so many special treasures and mementos. It can be easy to tuck those items away and eventually lose their place. These precious, tangible, lovely items that celebrated the start of your marriage are worth setting aside in a special place, collected in a meaningful way, so that you can continue to experience them.

When you're feeling reminiscent, on your anniversary, when your daughter gets engaged, when your grandkids ask you about your wedding... how special will it be to hold these items, show them these pictures, talk about the start of your marriage, and share the stories?

*What to Include in Your  
Wedding Heirloom Box*
