FIELDTRIPS

Hartley Outdoor Education

Field trips offer a unique opportunity for students of St. Paul's to create connections, which will help them gain understanding and develop an enjoyment of learning. Parents enjoy seeing their children experience hands on learning, and teachers look forward to getting out of the classroom and participating with their students.

FIELD TRIP FUN!

On September 28th, the 3rd and 4th grade classes took a class field trip to the Chippewa Nature Center in Midland. They experienced what life would have been like in a one-room schoolhouse in the 1870s. The students enjoyed writing on slate boards, reading from primers, and playing on stilts at recess!

TEACHER HIGHLIGHT

Linda Wiles attended Dr. Martin Luther College, graduating in 1982. Her first call was to Bethany Lutheran School here in Saginaw, where she taught for 8 years. She has taught at St. Paul's since 2002. Mrs. Wiles has taken her students on field trips to the Fowler School in St. Charles, the Delta Planetarium, the Historical Museum and Capitol in Lansing, as well as plays and events at MLS. She feels blessed to teach her students about the love of Jesus each day, whether in or out of the classroom!

Pictured Below: Basketball Coach Mike Priebe and the Girls A-Team celebrate Charli Alcorn reaching 500 career points at St. Paul's. The team ended the regular season with a 10-1 record. They grew closer in their special bond as a team, but also in Christian friendship, a relationship that will last an eternity. St. Paul's offers many different extracurriculars that fit a variety of students, including basketball, volleyball, and track, but St. Paul's Lutheran school exists to teach and encourage our children to praise, honor, serve, and trust God by teaching His Word. We thank the Lord that these girls had a great basketball season, but praise and honor Him even more for the Christian friendship and fellowship they will enjoy for a lifetime!
