Chris gave an update on technology. We missed the equipment Beta equipment install and testing. He's received the hard disks and will install them this morning. He is planning on setting up a meeting with various staff and ministry teams in the next couple of weeks for a presentation on cameras and installations. He hopes to install door sensors in June. The chair team is functioning normally.

Linda texted me to discuss changing the time of the Volunteer Picnic due to heat concerns in August. After discussion we decided to keep the time agree upon because changing it may only mitigate the temperature slightly. Also, making it any later may interfere with families with young children schedules for evening hours.

Dave gave an update on Ministry Center chair purchase that his understanding was that chairs were being researched and bids will be pending. He was unaware of any movement on the examination and determination of pew cushions replacement. He expects an update at the next Deacon's meeting.
