Bonus Track 6: I No Longer Fear Rejection!

Subconscious Reprogramming to Feel Safe Being Fully Seen, Heard, and Loved

Stop hiding parts of yourself to avoid being left.

This track helps you release the fear that if someone really saw you — your needs, your emotions, your truth — they'd walk away. You'll gently rewire the part of you that equates visibility with vulnerability and vulnerability with rejection. The more you feel safe being fully known, the more deeply you'll let love in — without holding your breath, shrinking, or second-guessing your worth.
