

Hi!

I'm Mary Colmar

I can help you elevate your closet, your life, and your space.

We can start by giving your closet an organizational lift.

Plus, I make sustainable fashion from leftovers into Upcycled garments.
Hand-tailored (slow fashion) fit and functionality, seasonless for a casual vibe.

WITH OUR DIY DECOR, WE HAVE EASY SOLUTIONS TO
MAKE NOW, NOT WHEN WE HAVE SAVED A LOT OF MONEY.

Client Testimonials

“I wanted to utilize clothes I no longer wear. Following the suggestions made by Mary. I had special occasion dresses I needed, upgraded from my everyday clothes.”

-Carol Goldmark, Artist

“We wanted to turn our formal wedding attire from a formal pandemic wedding dresses into fun party clothes for the next gathering. The bride, the mother of the bride(myself) and the maid of honor loved how they turned out edgy and festive. Mary did a great job!”

-JoAnn Matsuda

We had the idea of turning the spare bedroom into a closet. This was the result. I love it. Mary was so much fun to work with, coming up with new workable ideas.

-Fay McWain

OUR SERVICES

01

Closet Organization

Assess the clothes you have in your closet by putting like with like, while letting the clothes speak to you. Blouse is speaking, “I could make a cute dress”

02

Help with styling your wardrobe.

Discovering your style again. Just want to wake up and dress semi-put together for anything coming my way. Want my clothes to feel like me when I put them on.

03

Update or Upcycle your clothes

Take those shirts from, work in the office days, and make some changes. Those pants that might have some life left but no longer feel nice. Got t-shirts and suits with tons of potential.

PROJECTS

Selected works of strategic design initiatives with concrete results.

Ready to work with me?

I'm kind of an organizational wiz. Not in the super container way, but in a general overall space saving, optimizational way with clothing and decor.

I can upcycle your clothes creating more outfits and I can offer you window treatments, and slipcovers, too.
