## details

Chances are that you put a lot of effort into picking out every little detail of your wedding day. From the shoes to the jewelry to the flowers, every little detail tells a piece of the story of your wedding day! The beginning of the wedding day is the perfect time for me to capture all those little details and how they all came together before the craziness of the day starts! So by having all these items gathered ahead of time and ready to go when I arrive, we can ensure that everything is documented without running around the morning of to look for everything! So this document will tell you all the items you'll want to gather together and some tips to make the whole process smoother!

# Tips

TIP #2 - If you had calligraphy or any special lettering done on your invitations, have an extra copy made for me to photograph! And you can use a fake address or even the address of your venue!

TIP #3 - Have all 3 rings (engagement ring, bride's band, groom's band) included with your details so I can photograph them all together! Once I am done with them, we can have them delivered to whoever is in charge of holding onto them!
