5 Voices

TAG

ELEVATE YOUR TEAM PERFORMANCE

Throughout the 6–12-month journey, 5 Voices for Teams helps team members become more self-aware, creating opportunities for growth, which improves communication, trust and alignment with the team leader and the team. The result? Teams perform at higher levels while building stronger cultures.

The 5 Voices for Teams Program:
- Empowers Leaders
- Increases Team Performance Scores
- Improves Team Dynamics
- Builds Trust between Team Members
- Strengthens Culture

★★★★★
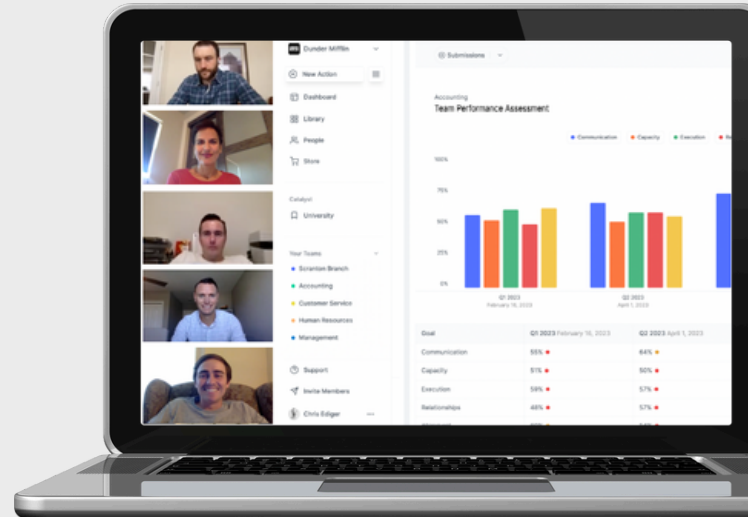

"The 5 Voices for Teams program is designed to help you and your teams achieve the highest levels of self awareness and awareness of others...While other assessments are okay, teams need to be equipped with essential Leadership Tools to go along with the assessment to help them truly thrive. No other program out there combines both."

– Charlie Slagle

5 Voices Assessment

The 5 Voices Assessment will give you a break down of every team member's voice, how they will perform at their best and how they will be affected by stress.

Team Performance Assessment

Imagine having the ability for every team member to assess their communication, relational dynamics, alignment, the team's ability to execute and overall capacity in an autonomous way. The results allow you to benchmark and track performance for every team.

Personal and Team Exercises

We use the best of Artificial Intelligence and the 5 Voices to create immediate application of all of the learning during the 5 Voices for Teams sessions to ensure each person has a chance to reflect and grow from their learning.

Dashboard

In the OS PRO we provide you the tools to track the 5 Voices assessments, assign learning actions and have a directory to understand how to interact with each person across the organization.
