Rae was the emcee at the Youth Co:Lab Summit 2023 in Bangkok, a summit organised by UNDP and Citi that I had the pleasure of attending and speaking at. Rae was the master emcee, with an audience of over 300 global entrepreneurs, business leaders, government and the UN.

With so much on the line for these participants, Rae was able to engage, lead and facilitate one of the most impressive events in South East Asia.

What truly sets Rae apart is her ability to engage diverse audiences from all over the world.

Rae was the emcee at the Youth Co:Lab Summit 2023 in Bangkok, a summit organised by UNDP and Citi. Rae was fantastic and brilliant where she has an exceptional ability to bring the audience together but most importantly to embed calmness to the line of youth startups that were presenting in front of the prominent international judges. That's always a nerve-wrecking moment for every start-up but Rae, somehow, you're a natural! What sets her apart from most great emcees is her sincerity to bring out the best in everyone, to understand them and to have the effort in listening to them (behind the scene) with whoever she works with. I felt privileged to know her from Youth Co:Lab event in Singapore 2022.

I had the pleasure to meet with Rae at Youth Co:Lab Summit 2023 in Bangkok. It was amazing to observe Rae in action as an emcee, she was natural on stage, with an undeniable charisma that captivated the audience throughout the 3 days event.

One of the most remarkable aspects of Rae is her personality and adaptability to energize the audience, creating an enjoyable and interactive atmosphere. Her ability to engage with the participants, interaction with fellow speakers to provide confidence in upcoming performances was an overwhelmingly positive experience.

Kudos to Rae for being her authentic self and uplifting our spirits throughout the event.

Thank you Rae for being a great emcee for our International Coaching Federation (ICF) research report launch in December 2020, bringing so much energy, enthusiasm and excitement to the event. Your confidence, authenticity and belief that "we've got this" is infectious.

Deeply grateful for your calming presence during the event as it helped me feel so much calmer when I presented. Looking forward to more collaborations in future.

Rae was the emcee and host for the Virtual Summit 2020 by Spendless Academy. She also moderated the panel of speakers that I had the privilege to be on.

As the emcee and host for the day-long summit, Rae was full of energy and she maintained this energy level all through. A very impressive performance with stellar engagement skills that came effortlessly while keeping the audience well in-tune with the sessions.

As the moderator for the panel, Rae was on-point and very sharp with her follow-up questions. She also made very good preparation work pre-session and all panelists were made to feel very comfortable even before the session. During the session, she was able to connect the dots of all panelists with their different specialisations, for the audience, and this to me is the mark of an exceptional host and moderator.

Highly recommend Rae as a host, emcee and moderator. And looking forward to experience her keynote as well!

Rae is one of the most charismatic and versatile emcee I've worked with. We have been working together for a livestream project for 8 months now, and she is nothing short of amazing!

Rae is extremely bubbly and creative, making it so easy for us to come up with new and exciting content every week! She often takes the initiative to provide additional feedback and new ideas to our client, and that has certainly value-added to the quality of our show. Above all, Rae is super generous with her knowledge, be it sharing practical and actionable tips on her Instagram or over our commute.

If you're looking for an emcee who can dramatically light up your event, you can definitely count on Rae.
