I don't care how much you've worked on your relationship with money, your next level, it's gonna require you to go deeper with your relationship with money, and that is exactly what cyber money has helped me do. It's helped me deepen and refine my relationship with money, receiving money and understanding the energetics on such a deep level, that I feel so much safer in my success and so much freer in claiming the abundance that I know I am capable of creating in this lifetime.

If you could guarantee making your dream life your reality, what would that be worth to you? Welcome to The Manifestation Babe podcast where we take topics like manifestation, universal laws, quantum physics, personal growth, and spirituality and turn them into simple powerful practical steps to apply in your life. I'm Kathrin Zenkina, manifestation expert, master mindset coach and multiple seven figure entrepreneur who has generated over \$25 million in just seven years. I am obsessed with helping you achieve everything that you once thought was impossible. There is no such thing as an unrealistic dream, and with the tools that I give you, don't be surprised when every area of your life receives a massive up level. Are you ready? Let's manifest. Hello, my beautiful souls and welcome back to another episode of The Manifestation Babe podcast. I am currently as we released this episode in Hong Kong, and right now though, as I'm recording it, I am frantically packing for Hong Kong. I have just completed my 3 Day money training cash flow that so many of you got to join me on last week. It was so much fun to do a live training for literally the first time in almost two years, and as of this moment, I'm frantically making my way to Hong Kong and then Bali where my husband and I, are going to be doing a 48 hour layover, eating our way through Hong Kong. I literally plan this layover you guys just to eat, like just to eat. My husband and I are such foodies. I don't know how many of you out there are obsessed with Asian cuisine as much as we are. We love going to Asian cities for many reasons. I think they're so cool, but also for the fucking food, and then we are heading to Bali for our inaugural manifested adventures trip that is super exciting. It's

the first one and we're doing it in Bali. I don't know if I ever mentioned this actually on the podcast but the COO of manifestation babe Her name is Londa, her and I are travel obsessed babes. That is the first thing we bonded on when we met, what now seven years ago and she started working for @manifestationbabe So last year, we both had the download to start a whole company called manifested adventures, which is a bespoke intimate group travel experience designed to help you live out your vision board all your vision board traveled dreams while making friendships and literally not lifting a finger when it comes to planning. I know so many people want to travel the world they feel so overwhelmed in terms of an itinerary and oh my god, they speak English What am I going to do? What away pack? What do I have to plan? bla bla bla bla bla bla, I know that's such a hindrance for so many people. So we created a whole company to solve all your problems. So I'm saying hello on this trip. If you're coming on the strip, I can't wait to meet you, and we're doing this first group in Bali because first of all, I miss Bali like crazy. I haven't been since 2019 I had to cancel my retreat in 2020 I used to host Bali retreats every single year, and Brennan and I are going together without the baby because the two of us needed some private mom and dad at the time and it just so fell together just so perfectly in terms of timing where we can make everything happen. So this is not a podcast about manifested adventures but I figured I would plug it in here just because it makes sense because we're literally doing it right now. But we have an Egypt trip coming up so if anyone ever wanted to go to Egypt but just feels overwhelmed, doesn't know if it's safe like just feels like they don't know how to make it happen and they don't want to go alone and they want to go with a literal built in group of friends. We are doing our inaugural Egypt trip this September there are two itineraries to choose from. They're amazing itineraries. Londa has lived in Egypt on and off for 10 years. She's like an Egypt expert at this point. She speaks fluent Arabic. I mean she's the best guide ever. She took me and Brennan to Egypt and so if anyone wants to come on that, I will drop the link in the show notes. Okay, it's officially launch season here in @manifestationbabe world, and this morning, I just opened the doors to Sovereign Money. My Sovereign Money program is my ultimate money manifestation program that my students who have been in it since January have been absolutely raving about. Like, guys, I thought I was getting testimonials before but nothing like this. Nothing like Sovereign Money, and it's, I'm very proud of this program. It's not like any program I've ever created before it is so easily digestible. The format that I've put it in, my students have been loving it so much, and it's, in my opinion, my very biased opinion, the best program in the world. So I know so many of you were in the training with me last week, I know, those of you who follow me on social media have been hearing me talk about Sovereign Money, have been listening to me, you know, promote the fact that we're about to open Sovereign Money. So it's open, and I know there are some of you who are sitting on the fence right now wondering if this program is for them, or just simply feeling afraid of pulling that trigger and jumping inside, I enlisted the help of a few of my Sovereign Money students to share a few words with you, to inspire you, and to just let you know that you're not alone in feeling this way. They felt like this too, and you are incredibly supported in this program, this money manifestation journey, should you choose to enroll into the program this week, we are only open from the moment this podcast lands in your feed Monday, May 20, and we close on Friday, May 24. So I know it's only a couple of days. If this is something that you're thinking about joining, then this episode is definitely for you. If you're someone who's like, I need the deets, I need the Enrollment link, I'm ready to go. I want to know what's inside, I'm going to drop the link in the show notes. Or you can go to manifestationbabe.com/SM, that's S for sovereign M for money, manifestationbabe.com/SM everything is listed out for you and you when you're ready to sign up, you can actually sign up there and I literally can't wait to see you in this program, and I am immediately dropping some content. So if you are like I don't want to wait for a certain date to get started. You're gonna get content right away, you're gonna get my dripping in money meditation that people have been raving about how many transformations have come from that meditation alone, I've never been

more proud of a meditation. There's a welcome audio in there, and then we start dropping content, more content in a beautiful stream of flow. That is super like I said digestible, implementable, is that a word implementable? Implement Friendly, I guess is the word I'm looking for, and just super action packed and transformative really. So like I said, I'll drop the link in the show notes manifestationbabe.com/SM, this enrollment period is super short. So please don't wait. Don't be the person who DMs me or emails me on Saturday being like, oh, no, I didn't get in because I will not be opening this program again for a while I have no plans of opening it again this year. So you might have to wait till next year. Again, things can always change. But just so you know, our fall launch is going to be something different. So if this is a program that like if this is an area of life, that you really want to master money manifestation, your experience or perception the way that you are in relationship with money. If you're like Kathrin, it's not a really good relationship. Like it ain't looking so good, or I still feel anxious and oh my god, I've never had more money in my life. But I also have never had more anxiety in my life around money. This program is for you. So without further ado, some of my Sovereign Money queens to share a few words.

Hi, my name is Ashley Gordon, and I'm so excited to share a few words about my transformation going through the Sovereign Money program. The first audio drop of Sovereign Money requires you to make a commitment to yourself, and I remember exactly where I was, listening to this and making this commitment to myself with my headphones in, and as soon as I made that commitment, I got an \$8,500 payment notification that someone just enrolled in QCA and they paid in full. I was blown away like who? Whoa, I knew starting Sovereign Money was going to be a massive activation to unlock my next level of receiving power, and it was already happening. Sovereign Money has deepened my relationship and understanding of money. The way Kathrin breaks down the energetics of money and the feminine and masculine energetics of money has not only just blown my mind, but it's changed my relationship to the way that I am open to receiving through my feminine energy. What makes Sovereign Money so transformational is yes, you're learning all these deep, powerful concepts that she teaches so beautifully and masterfully, and for me personally, it's one thing to learn something and it's a whole nother thing to put it in my body, in my being. So the breathwork, the hypnosis, the meditations, all of these elements of the program, make it experiential, to really embody what you're learning, embody this work, embody it at a subconscious level, and a physical level, working through what needs to be released. To really create space to receive, it's been so incredibly powerful. The energy of this container is so potent that I felt like any time I dropped in to listen to an audio or to do one of the hypnosis or breathwork sessions, I was receiving an energetic response back in the form of a payment notification, a pay in full notification, and application coming through really paying attention to the energetics of me doing this work, and what was flowing into my business. In my reality. I will literally be going back through these practices and Sovereign Money forever, the hypnosis, the meditation, the breath, work, everything, the trainings, the lifetime value of this program is absolutely insane. I don't care how much you've worked on your relationship with money, your next level, it's going to require you to go deeper with your relationship with money, and that is exactly what cyber money has helped me do. It's helped me deepen and refine my relationship with money, receiving money, and understanding the energetics on such a deep level, that I feel so much safer in my success, and so much freer in claiming the abundance that I know I am capable of creating in this lifetime, and I am so freakin grateful. Kathrin, I love you. Thank you so much for creating such an amazing program. It's transforming so many lives, and it's definitely changed mine.

Oh, hello, everyone, I 1 million out of 10 Recommend Sovereign Money to anyone who is feeling called or on the fence about it, like just pull the trigger and do it. Kathrin is an incredible friend of mine. So I know her on a personal level, and I can tell you right now that she is a pure light. She's just a pure vessel, and she genuinely genuinely just wants people to thrive, take their power back and truly create what they desire to in their lives. There's no ego behind what she's teaching. There's no ego behind anything she's doing. She just genuinely has this soul led desire to see people tap into their greatest potential and whatever it is that they desire to do. She's also one of the few people who truly practices what she preaches, and fully embodies everything she teaches in her courses, and it works y'all like it 100% works, I can confirm, I have been in Sovereign Money I have taken it and she's able to offer these incredible subconscious brain shifts and mindset shifts, mentality shifts, energy shifts, where it doesn't matter if you are making \$2 or making 2 million, you can apply it to anywhere in between or even more than that. It also doesn't matter if it's your first time learning manifesting Money or Your 10 million time learning manifesting money. Like even if you're hearing something in there for a second or third time, the way she can explain it and the way she says things, they can offer a whole new different perspective and mentality and a way for this to click for you. So wherever you're at in your journey with learning the stuff in your journey of making money, you will want 1,000,000% get so much life change, energetic change, physical change and benefits from this I could not recommend it enough. Hey, gorgeous souls. My name is Maritza. Feel free to call me reds. I am a manifestation lover, and I have been a student of manifestation babe for quite some time now. Like oh gee, Rich Babe Academy. I've taken that course, I've done manifestation babe. A couple of times I've been a peer mentor, and this past February I started off doing Sovereign Money, and I can say I've been pretty consistent about it, which I feel good about, and I have experience some shifts in my life when it comes to my relationship with money. Like let me tell you, like I have been working on feeling way more comfortable and safer with having more money in my life like surpassing the ceiling that I've had in my life and clearing away limiting beliefs that have been holding me back and I know anybody can relate to trying to break through and clear way those self sabotaging beliefs that hold us back and I can speak so highly of this course because Kathrin provides us with tools such as subliminals, hypnosis, meditations, breath work, there's Q&As, journal prompts, transcripts too, because for folks that aren't an audio learner, there's transcripts like, this course is amazing, and another shifts that I can say my spirituality, my relationship with God is very important to me, and I definitely feel like this course has definitely up leveled my relationship with God, whatever your language is for the Creator universe, Goddess, mother, like Divine Mother. Yeah, this course is just amazing and just feeling like the queen of your life, queen of your money, because we're all queens, and if you're a man, you're a king, or whatever you choose to identify yourself as it doesn't matter. What matters is that as positive beautiful souls, we need more people like us who have money because not only does it benefit our lives, it benefits the people around us. If you have a business and benefits your customers or clients, organizations and causes that are near and dear to your heart, you'll have more money to donate too, like we need to make wealth and abundance and having money not this negative thing. It's beautiful, money is beautiful, and I just am so grateful to be a student of Kathrin's work and just to learn and be on this ride, so if you're on the fence and taking this course I highly recommend signing up.
