

Steve Merritt's Suggested THIS IS IT X39 Script

Hi John_____ "The reason I'm calling... I came across a patented technology that reactivates your own stem cells ...

What do you know about stem cells?

Stem Cells actually make up every organ in your body.

I've never been told by any of my doctors that as you age your stem cells become dormant to the point at 30 years old ½ are active by 60 you're lucky if 10% are active.

That's why people as they age are more prone to sickness, disease, recover slower, feel sluggish, forget their keys, loose mental clarity, have more aches and pains.

Share A brief Testimony; Yours or borrow someone else's

This quarter size device took 10 years of research and \$4.5 million dollars and using the light from your body re-activates your own stem cells.

Because it's exclusive, the testimonies are so emotional, no one knows their stem cells are going dormant, they never heard about X39, and everyone must use this technology, it SCREAMS OPPORTUNITY!"

John, we're talking serious income, are you open/looking?

With this this elevator pitch, we never have anyone ask us about how to cure a disease or needing a testimony.

After their first question we send the ThisIsItInfo.Com and it does all the work!

Send THIS IS IT X39 Order Form (copy and paste from ThisIsItTeam.Com) and Explain to Pick Diamond or Gold Package and Two Sleeve Subscription so they can maximize the compensation plan.
