Kodak Endura Professional Photographic Papers

1. Choose a finish:

Luster - Traditional satin finish.

Metallic - Sharp, bold, bright. Glossy. High definition. Aluminum emulsion.

Deep Matte - Flat. Blacks appear more gray. Muted, mellow tones. Moody.

2. Add on mounting if desired:

Print \$ + Mounting \$ = Total Print Cost

Mounting = your print will be adhered to an acid free 1/16" substrate for stability, protection, preservation, and longevity of the print.

Character + Art + Your Images = Organic Edge Prints.

katelynturner.com/organic-edge-prints

This Museum Grade Watercolor Paper turns photos into fine art. The unmounted hand-torn borders offer a distinct look you cannot find anywhere else. The archival inks are deep and moody.

Each print is handmade and one-of-a-kind. Organic Edge Prints offer variations in color (white to beige/cream), brightness, texture, and edges. You can order them with an art border, or full bleed.

Simply striking pieces. Glicee Circle Prints are each handmade and one-of-a-kind. This museum grade watercolor paper offers variations in color (white to cream), brightness, and texture. Your image will bleed all the way to the edge of the print.

Straight Edge: The circle will be sliced to leave sharp, definite, clean edges.

Deckle Edge: The circle will be hand torn to leave a distinct edge that's full of character.

Loose = Paper print only. Meant to frame.

Mounted = Print is adhered to an acid free 3/16" foamboard for extra durability, strength, preservation, longevity, and presentation of the print. Frame a mounted print and the foamboard will create a floating look.

Hanging Mechanism = The mounted print is adhered to a wood frame with sawtooth hangers so the Glicee Circle Print can be hung directly on a wall with no frame. **DO NOT** order these if you intend on framing your Glicee Circle Prints.

A single Metal Print floats 1/2" off the surface of a second, larger Metal Print. This creates a 1" frame around the front Metal Print producing a modern 3D visual. On sizes 16x20 and larger, the print in the back creates a 2" frame.

Made by infusing dyes directly into specially coated aluminum sheets, Metal Prints are applauded for their magical luminescence. Colors are vibrant and the radiance is breathtaking. The clarity and depth rivals seeing the photographed subjects in person.
