

Dear customer,

Calling all landscape gardeners, architects, retailers, aquatic companies and buyers from garden centres – we know how challenging it is to get aquatic products that are high quality but available at discounted rates.

Stainless steel water blades are now available at discounted rates.

Give your customer that 'wow' factor with a product that is well made but with a great price. You get to keep the margin and they get a product that will give them years of use.

We have over 40 years of experience in aquatics. Our products are made to a high standard, using quality stainless steel. We offer trade prices on every product we sell.

Benefits of our Water Blades

Here's a snapshot of what our water blades do:

- ✓ Designed and made in the UK using materials from UK and EU
- ✓ Range of water blades from pump fed to gravity fed
- ✓ Spillway, arc waterfall, standard water blade and corner water blades available.

Here's what we offer:

- Every water feature we make is designed, developed and made in-house.
- We build the product to be of high quality.
- We source all our materials from the UK and the EU to ensure high material quality.
- Our products are currently in use in more than 20 countries around the world.
- Access bespoke sizes to fit your project – we can manufacture any size.
- We can provide you with a water blade, pump, and pipework package.
- Our products are 100% UK made and do not import any products
- We also sell waterfalls, spillways, reservoirs, pipes and fittings, pond pumps, koi food, and pond filters. We regularly offer clearance priced products.
