

CAPABILITY STATEMENT

TRAINING AND SIMULATION

PAC supports simulation, training and interoperability for our Defence and commercial partners. With a foundation supporting fast jet training, our team of experts provide the following services:

PROGRAM MANAGEMENT

Independent, hardware-agnostic services ensuring effective assessment, delivery and integration of training and simulation systems, specifically:

- Resource, cost and schedule management
- Assessment and delivery of operationally-effective devices
- Device & facility integration

DEVICE FIDELITY MANAGEMENT

Specialist T&E and Fidelity Management expertise, ensuring devices optimize training outcomes, specifically:

- Capability development, requirements capture and specifications review
- Systems Engineering and design documentation
- Verification & Validation (V&V) and Acceptance Testing
- Device qualification and certification activities (CASA/FAA/EASA)

TECHNICAL SUPPORT

Highly-skilled and hands-on technical support, including:

- Device installation and sustainment
- Technical writing, including maintenance procedures, System Overview, Test Guides and Fidelity Management Plans
- Systems security plans and procedures

ADVANCED TRAINING ENVIRONMENTS

Specialist operational and technical advice, supporting Live, Virtual & Constructive (LVC) training environments, specifically:

- Information and cybersecurity documentation and accreditation support
- CONOPS and Operational Concept Document development
- Network and systems architecture and administration

ADDITIONAL SERVICES

Providing specialist training services, including:

- Advanced Methods of Simulation courses
- Hypoxia training system acquisition and support

WHY PAC?

- Integrity, professionalism, and flexibility are core to everything we do.
- Established and trusted partner who delivers superior operational effectiveness.
- We are strategically located to support our clients.
- Agile corporate structure, unencumbered by bureaucratic processes.
