Tech. & Library Teacher

Job Summary:

Manheim Christian is seeking a passionate and dedicated Library and Technology Teacher to inspire students in a faith-based educational setting. This role combines library management with technology instruction, fostering both a love for reading and digital literacy skills. The ideal candidate will integrate biblical principles into lessons while equipping students with the research, critical thinking, and technological skills needed for the modern world.

Key Responsibilities:

Library Management:
- Maintain and organize the school library, ensuring an inviting and resourceful learning environment.
- Curate and manage a diverse collection of books and digital resources that align with Christian values and educational standards.
- Assist students and teachers in locating and utilizing library resources effectively.
- Promote a love for reading through book talks, reading programs, and engaging library activities.

Technology Instruction:
- Develop and implement a comprehensive technology curriculum that supports digital literacy, coding, research skills, and responsible online behavior.
- Teach students how to utilize technology ethically and efficiently, integrating biblical principles into discussions on digital citizenship.
- Provide training and support to teachers on the effective integration of technology into their classrooms.
- Manage and maintain school technology resources, including computers, tablets, and software applications.

Spiritual and Academic Leadership:
- Model and uphold Christian values in all interactions with students, staff, and parents.
- Integrate biblical worldview into library and technology lessons.
- Foster a Christ-centered learning environment that encourages students to grow academically and spiritually.
- Collaborate with faculty to support cross-curricular projects that incorporate research and technology.

Qualifications and Requirements:
- Bachelor's degree (preferred) in Education, Library Science, Information Technology, or a related field.
- Experience in library management, technology instruction, or related educational roles.
- Strong understanding of digital literacy, online safety, and technology integration in education.
- Committed Christian with a personal relationship with Jesus Christ and agreement with the school's statement of faith.
- Excellent communication, organizational, and collaboration skills.

Preferred Qualifications:

- Experience working in a Christian school setting.
- Knowledge of educational technology tools and platforms such as Google Classroom, coding programs, and interactive media.
- Familiarity with library management software.
