

Interest Form

Education Without Walls Education is a year round program designed to help motivated teens achieve academic and personal goals. Through the application of meaningful outdoor expeditions and ongoing mentorship we provide support to motivated teens with financial need. Each student (and their family) is linked with an advocate to help students reach their personal and academic goals through out the school year. During the 12 to 16 daylong summer expedition students may camp, rock climb, surf, backpack, or sea kayak. They make close friends and learn incredible skills all while having an adventure of a lifetime. Education Without Walls provides students with all of the outdoor equipment and food needed during summer expedition. Students must be 13 years of age to participate.

Full and Partial Scholarships are available!

If you and your child are interested in learning more about Education Without Walls, please complete the information below and return this form to us. Once we receive the completed form we will call you to line up a time talk more about this opportunity.

Student's Name: _____ Student's Date of Birth: _____
