

Clothing Guide for High School Seniors

1. Wear clothing you know you look good in. If you get compliments in a certain color or outfit, wear that or let that guide you.
2. Layering clothing looks and photographs great. For girls this could be a dress with a cardigan or a cute jacket over a shirt. For boys this could be a button up under a sweater or jacket.
3. Wear clothes that fit you. Occasionally people borrow family member's clothing for a jacket or shirt and if it is oversized on you, it will look sloppy. In the same way, clothing being too tight and restrictive will also look less ideal.
4. Related to the last point, be comfortable. If your clothes make you uncomfortable, it is hard to feel relaxed and at ease for your portraits.
5. Avoid bold high-contrast patterns and logos (unless this is totally "you"). Excessive pattern is distracting and will draw your eye to the pattern vs. your face. Solids, textures and subtle patterns always look fantastic.
6. The easiest way to have more looks at your session is to bring a jacket, sweater, scarf or a shirt that you can put over a main outfit for a new variation.
