Roth Conversion Poll

Roth IRA vs. Traditional IRA

Feature	Roth IRA	Traditional IRA
Contributions	After-tax dollars	Pre-tax dollars (if deductible)
Tax Deduction	Not deductible	Deductible (if eligible based on income/retirement plan participation)
Investment Growth	Grows tax-free	Grows tax-deferred
Retirement Withdrawals	Tax-free if qualified	Taxable as ordinary income
RMDs	None during the account holder's lifetime	Begin at age 73 - 75
Access to Contributions	Anytime, tax- and penalty-free	Subject to tax and 10% penalty if under age 59½
Income Limits to Contribute	Yes – based on Modified Adjusted Gross Income (MAGI)	No income limits
Best For	Those expecting higher taxes in retirement	Those expecting lower taxes in retirement

What is a Roth Conversion?

Questions to Ask Yourself about Roth Conversions

- 1. Is a Roth conversion a smart tax move right now? What is my tax bracket today versus the estimated future tax bracket?
- 2. How will a Roth conversion impact other aspects of my financial plan? Do I have enough cash on hand to pay taxes on the conversion?
- 3. Do I have adequate tax diversification?
- 4. Do I plan to leave assets at death to the next generation? If so, what is their estimated future tax bracket?
- 5. Do I plan to leave assets at death to charitable organizations?

Roth IRA Benefits for Retirees*

- Tax-free growth and withdrawals
- Reduced required minimum distributions (RMD) (provides income management flexibility)
- Help reduce overall tax liability in retirement
- Pass tax-free assets to heirs

*After age 59 ½ and account has been open for at least 5 years

Scenario One JOHN & SARAH SNAPSHOT

John and Sarah Snapshot

The Facts:

- 1. John and Sarah, age 62
- 2. Investments
 - Sarah: \$1,500,000 Traditional IRA
 - John: \$1,200,000 Traditional IRA
 - Joint taxable account: \$400,000
- 3. Current income: \$120,000 combined (part-time consulting work)
- 4. Residence: Illinois (flat state income tax ~4.95%)
- 5. Social Security benefits start at 70
- 6. Required Minimum Distributions (RMDs) begin at 75

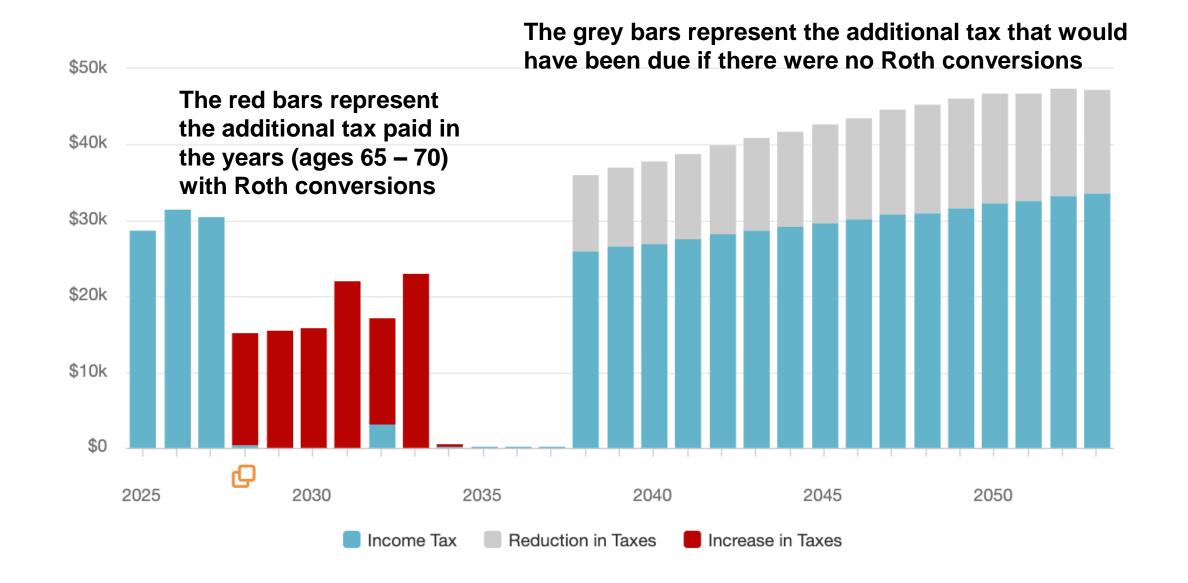

John and Sarah Snapshot – Roth Conversion Goal

- John and Sarah want to:
 - Reduce their RMDs once they begin at age 75
 - Minimize the tax burden to their children when they inherit their assets (their children are high income earners)
- John and Sarah want to take advantage of their lower income years to make Roth conversions but did not want to go above their allowable income within their 12% income tax bracket.
- We ran the analysis to convert as much as possible within their requested parameters. The result was no conversions during the 3 years of part-time income (ages 62 64), with conversions beginning at age 65 and continuing until age 70.

SCENARIO TWO CARIN AND CARL CLARK

Carl and Carin Clark

The Facts:

- 1. Carl and Carin, age 45, just had a baby
- 2. Carl will stay home with the baby for 3 years and then will return to work
- 3. Investments
 - Carl: \$400,000 in Traditional IRA
 - Carin: \$500,000 in Traditional IRA
 - Joint taxable account: \$200,000
- 4. Current income: \$400,000 combined (before Carl stops working)
- 5. Residence: Illinois (flat state income tax ~4.95%)

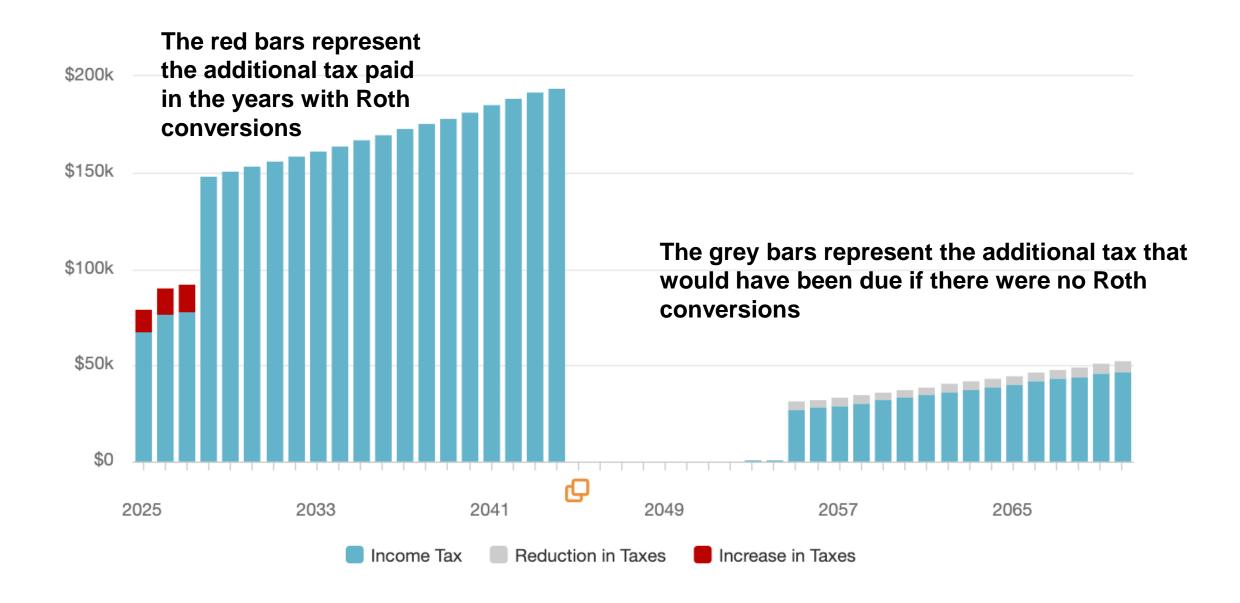

Carl and Carin Clark

Carl and Carin want to:

- As an alternative to fully funding a college savings account they wanted to get some of their assets into a Roth IRA that they could tap at some point to pay for their child's college.
- To do this they decided to take advantage of this period of relatively low income and get some of their IRA assets into a Roth IRA.
- They decided they would do a \$50,000 conversion each year for the three years that Carl wasn't working.
- We ran the analysis to convert \$50,000/year for the three years that Carl wasn't working.

Carl and Carin can now expect to have about \$300,000 available to pay for college.

In Closing

Roth conversions bring a certain amount complexity with them and can be a great tool for your toolbox.

There is no "one size" fits all. Not only must the calculations be done, but only you can answer if they feel right to you.

Please reach out to Tammy or Jenifer for further questions!
