All the footage from your wedding will be shot in a color graded format easy for you to view. Before purchasing, consult with our team to ensure it aligns with your vision. Consider our FOMO Edit for a curated collection of all the clips compiled throughout the day: one file, takes up less space, and it's less files to keep up with. As an added bonus, multi-cam clips will be spliced in the FOMO Edit which is not something you get with this add-on.

*Any videos from the raw footage are for personal use only and must be kept privately.

The FOMO Edit (Most Popular Add-On)

Have a Fear of Missing Out on all of the many little moments throughout your wedding day? We're happy to offer our new FOMO edit which is essentially a 2 to 3 hour video of everything we shot that day. In other words, a glorified Home Video Edit of your special day. We drag all the footage we shot from the entire day, and place it in our Editing Timeline chronologically then deliver it to you. We'll remove horrible shaky or duplicated shots and even splice together multi-cam sequences and sync all the audio that was captured. Film will be colored and will not include background music. This is delivered separately from your final Wedding Film.

What do we need to know?

A person in a white long-sleeved shirt and light-colored pants stands on the deck of a boat, holding the railing. In the background, several flags are visible, including a large Italian flag (red, white, and green) and a European Union flag (blue with yellow stars). The boat is on a body of water, and the background is slightly blurred.
