The inspiration...

"New Orleans's Cajun cuisine, distinct French and Spanish influenced architecture, Jazz music, and Second Line marching bands, sparks a great deal of inspiration. Surrounded by the magic of New Orleans I wanted to design an elegant yet vibrant look as a nod to this beautiful city. The color palette of gold and white throughout was inspired by the city's timelessness and rich heritage. Lush all-white floral arrangements and candelabras from Blucid Floral resulted in beautiful textures and height to the tablescape. The gold-mirrored Cartier chairs from Chair Couture were the perfect accent to complete the design. Orchids, roses, and greenery were used throughout to create a cohesive look between the stunning invitation suite by Exquisite Events and the classic Gambino's Bakery cake surrounded by a garland created by Leaf and Petal Floral Design. The Monastery was such a gorgeous blank canvas that allowed for a clean, refined look. The creative team a part of this editorial was amazing to work with and the opportunity to attend the Inspire Design Workshop was one to remember!" - FAITH FOLAYAN
