Mona and Daniel's story began the summer after Mona graduated high school. One evening, while out with friends, Mona met Dan in a parking lot where their cars were parked side by side. Dan noticed Mona sitting in the back seat and felt an instant spark. That seemingly random encounter sparked a bond that grew stronger over time as they supported each other through life's highs and lows.

After six years of dating, Dan proposed on his birthday, making it unforgettable for both. Mona had planned a celebration in downtown Toronto, so Dan's booking of a hotel room didn't raise suspicions. But when Mona walked in to drop off her overnight bag, she was met with a romantic surprise: candles, flowers, balloons, and giant letters spelling out "Marry Me." Joined by close friends, the proposal was intimate yet joyfully shared, marking the start of their next chapter.

The couple were married on August 31, 2024, at Hotel X Toronto. The ceremony featured a sofreh created by event planner Edesa Doman of Petals and Pearls, with ethereal floral arrangements from COCO by Covers Couture.

Mona wore a strapless princess-style dress by Monique Lhuillier from White Toronto while Daniel wore a tailored suit paired with Christian Louboutin shoes.

MONOCHROMATIC MOMENTS

The reception continued the sophisticated theme set during the ceremony, with a color palette of black, white, and nude. COCO Design by Covers Couture crafted custom floral boxes that filled the venue. The crisp, tailored centerpieces created an immersive, modern setting. A standout feature was the head table, illuminated by custom chandeliers.
