

*Important* \_\_\_\_\_  
**THINGS TO KNOW**  
*about your digital files*

I have taken great care in ensuring your images have been edited beautifully for you to print and use for your Personal purposes. The images retain Copyright ownership to PBB so if you would like to use for Commercial purposes, please contact me to discuss usage rights.

It is important to create a duplicate of your collection for safe keeping. Rule of thumb for the archival of important images is - make 3 copies, use 2 different sources and have 1 copy on the Cloud. I've already saved your files to DropBox (Cloud storage) for you to access.

Viewing your images on your TV or uncalibrated computer may show some colour variations. I have ensured the following Print Labs are compatible with my editing ~
