

INTERIOR STYLING PLAN.

## OVERALL STYLING.

A true escape from the daily humdrum of life, Replenish will live up to its name. Creative lighting, and eye catching installations will speak volumes in this super minimalist space.

## CEILING

Open Airy. Enlightening. I want the guests who come to a class at REPLENISH to feel like their palettes are cleansed. Soothing colors, patterns, and textures, with a minimalist design aesthetic that can easily be adapted for private events should the owners choose to host them.

Whitewashed natural wood floor tiles (pergo for best price) to continue on the back wall.

Lasercut white drop tiles,

LIT

Simple silver track lighting where necessary.

Mood lighting installed behind ceiling panels

Custom Lighting pendants, cut out of the same wood as the floor. Going for a monochromatic look until you go deeper into the space.

## YOGI BACKDROP

T

1

T

Plant Install in a long box, easy to replace plants. Want to break up this wall. Track lighting up top.

This space is supposed to feel "deeper" than the front area; bringing in the colors, and some more dimension to the design. A break from the monochromatic, this space will be bolder.

Want to bring in the green or purple here, with round

shelving for merchandis-

one from West Elm

ing, and a long console for merchandising. LOVE this

## THE BACK

Some ethereal art on the wall over the couch

Current ledge shortened, curved around, and covered on top with faux marble to allow for a register. Small fridges behind for water.

Small seating area with a blush lounge, coffee table TBD, maybe another chair Faux concrete wall to add a pop of fun to this area. maybe JUST the word REPLENISH on the wall. MISC.

We should have custom printed meditation poufs and yoga mats with breand patterns for patrons to use.
